PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 7th November 1910.

READ—

The following letter No. 5252, dated the 1st September 1910, from the First Assistant to the Hon'ble the Resident in Mysore:—

"I am directed to state, for the information of the Durbar, that the Government of India have adopted the following principles to be observed in all cases in which land may be required in future for railways in Native State Territory:—

(1) Durbars will receive compensation for waste lands required for State Railways proper, and State Railways worked by Companies. In the case of Companies' Railways, the terms of whose contract provide for the free grant of land, such lands must be ceded free of charge as is done by the British Government.

(2) In the case of all other land, the Durbars will receive compensation to the extent of any outlay incurred by them in its acquisition, *e.g.*, by payments to occupiers, etc.

(3) They will also receive some compensation for extinguished land revenue, the amount to be settled by negotiation in individual cases, due regard being had to the indirect advantages accruing to the Durbar from the Railway.

(4) Estimates of the compensation to be granted will be framed by an officer appointed by the Government of India or the Local Government concerned, with whom will be associated a Durbar official, and a Railway official. The estimates will subsequently be approved by higher authority.

2. I am to add that the Government of India are pleased to direct that these principles should be held to supersede the provision of Article 15 of the Instrument of Transfer which requires His Highness the Maharaja to grant all such land free of charge.

No. R. 2931-40—L. R. 96-10-2, DATED BANGALORE, 7TH NOVEMBER 1910.

ORDER THEREON.—Recorded and communicated to the Revenue Commissioner in Mysore, the Secretary to Government for Railways, and the Deputy Commissioners of Districts, for information and guidance.

READ—

Letter No. 8106, dated the 11th February 1910, from the Revenue Commissioner in Mysore requesting sanction to the levy of an acreage cess of 8 annas per acre from the raiyats holding lands under the Deepambudi tank in lieu of their liability to maintain the tank and its channels.

READ ALSO:—

Unofficial note No. 34, dated the 12th September 1910, from the Chief Engineer of Mysore, forwarding the report of the Superintending Engineer, Northern Circle, furnishing information as to the amount of work that has to be carried out immediately and its cost, and also the cost of annual maintenance of the work which the raiyats are liable to contribute in the form of acreage cess.

No. R. 2976-7—L. R. 311-09-2, DATED BANGALORE, 9TH NOVEMBER 1910.

ORDER THEREON.—The Superintending Engineer's report and its enclosure show that the amount of Rs. 437-2-0 collected from the raiyats in December 1907, at the rate of 8 annas per acre on the extent (866 acres and 10 guntas) of land then under occupancy, and the amount due for the subsequent three years will be required to put the tank and its channels in order, and that the cost of their annual maintenance as well as the maintenance of Kempambudi tank depending on the Deepambudi tank will be about Rs. 520. It is reported that the present Atchkat being 930 acres and 16 guntas, the acreage cess leviable from the raiyats comes to Rs. 465 and that when the channels are restored and all the dry lands are converted into wet, the whole irrigable Atchkat under the two tanks will be 1,538 acres and that the cess leviable thereon will amount to Rs. 728.

As both the Revenue and Public Works Departments are in favor of levying the cess at the rate of 8 annas per acre and the raiyats have executed mutchalikas agreeing to pay the same, Government are pleased to accord their sanction to the proposal and to direct that the annual maintenance of the irrigation works be carried out by the Public Works Department.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 9th November 1910.

READ—

Letter No. 3121, dated 8th September 1910, from the Revenue Commissioner in Mysore, submitting for orders copies of letters from the Deputy Commissioner, Bangalore District, recommending the grant of 20 acres of land out of gomal S. No. 124 (extent 80 acres and 19 guntas) in the Kalari Kaval, Magadi Taluk, to one Hanumantha Naik, Jamadar of the Chief Commandant's office, at an upset price of Rs. 10 an acre in consideration of his long and approved service, the inadequacy of his pension and his inability to compete with bidders in an auction sale, and stating that the Deputy Commissioner is not right in thinking that Government Order No. R. 11565-73—L. R. 329-05-2, dated 7th March 1906, empowers officers of the Revenue Department to grant concessions of the kind and that the exercise of the discretion allowed by the said Government Order by any officer other than the head of the Government will be prejudicial to the interests of Government.

No. R. 3044—L. R. 111-10-2, DATED BANGALORE, 9TH NOVEMBER 1910.

ORDER THEREON.—Government agree with the Revenue Commissioner that there are not sufficient reasons in the present case for granting the land at an upset price. The discretion to be exercised under the Order of March 1906 is limited to what is necessary to reconcile Government with private interests and the Deputy Commissioner cannot take into consideration such reasons as inadequacy of pension, want of other means of livelihood, or inability to pay the proper price of the land. Anything calculated to make a grant savour partly or wholly of a gift would render the exercise of discretion improper, if it is one of the main reasons for departing from the darkhast rules.

The following letter No. 2377, dated the 18th August 1910, from the Revenue Commissioner in Mysore :—

"I have the honor to state that as no one has been appointed Inspector of Sorting of Records in the place of Mr. Ananda Rao Sirsi, it has become necessary to revise the arrangements for supervising the sorting work in the various offices and to issue to the districts a fresh set of instructions.

2. The work of the Inspector of Sorting of Records consisted mainly of

(*a*) Checking and returning, with necessary instructions, of monthly diaries of record-keepers and daftarbands of each Taluk and District Office received direct from the various Amildars and Deputy Commissioners, respectively, amounting to about 168 diaries in the vernacular every month.

(*b*) Inspection of Record Offices, issue of needful instructions in person or in writing directly to the officials concerned and the despatch of Inspection Notes to Deputy Commissioners for submission to the Revenue Commissioner with their remarks thereon.

(*c*) Issuing orders on the memos addressed by the Amildars in cases of doubt or difficulty experienced in the practical application of the Record Sorting Rules.

3. I think the Sub-Division Officers should now be able to do in regard to the taluk under heir charge the work which the Inspector of Sorting of Records was hitherto doing. If any aluk is directly under the charge of the Deputy Commissioner, the work in regard to the liaries of the Record Establishment of such taluk as also of those of the Record Staff of his wn office should rest with the Deputy Commissioner or the Treasury Assistant Commissioner under his orders. Therefore the work contained in (*a*) of para 2 above may in future e delegated to the Deputy Commissioners and the Sub-Division Officers.

4. The Sub-Division Officers may also be asked to submit to me through the Deputy Commissioner every month a statement of work done in the taluk in the form enclosed. The Deputy Commissioners may send up in original the statements received from the Sub-Division Officers with their own remarks without any consolidation of the Sub-Division statements being undertaken in the District Office with a similar statement regarding he work done in the taluks under direct charge of Deputy Commissioners and of the District Office. These statements will be received in this office and copy of reviews will be sent to Deputy Commissioners and submitted to Government for information.

5. Regarding (*b*) or the Inspection of the Record Offices, each Taluk Office records hould be inspected at least twice a year by the Sub-Division Officer (or Deputy Commissioner f he is in direct charge of the taluk), once during the Jamabandi and another time in uly or August. The Notes of such Inspection should be submitted to me and also filed n the records for being seen by the Revenue Commissioner and the Dewan or Councillors hile on tour. While I go out on tour I shall inspect the records and issue suitable instructions.

6. As regards (*c*) in cases of doubts and difficulties, the Amildars may seek the advice f the Sub-Division Officers and Deputy Commissioners; and in cases in which the latter eel any necessity, they may obtain my orders.

7. The two Sayer clerks whose retention for one year has been ordered in Government roceedings No. R. 769-70—L. R. 9-09-9, dated 8th August 1910, are now working, one at angalore and the other at Channapatna and the Sub-Division Officers concerned will be irected to report on the work done by them and to relieve them as early as possible after he records in these Taluk Offices have been brought to order, so that their services may e lent to other taluks.

8. The one office clerk on Rs. 30 sanctioned for one year will be working in my ffice as a part of it and will be in charge of the monthly returns from districts and the old ecords and references of the Inspector of Sorting of Records.

9. If the above proposals meet with the approval of Government, I request that rders may be passed for effect being given to the above scheme from 1st September 1910.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 3081-9—L. R. 76-10-2, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER THEREON.—Government are pleased to approve of the proposals made in the letter read above.

2. One of the Assistants to the Revenue Commissioner should, along with his other work, check the returns and diaries that are received, observe the progress made in the work and by occasional tours of inspection under the Revenue Commissioner's orders see that the work of sorting and maintaining the records in proper order is methodically done and the rules are properly understood, bringing the defects to the notice of the Revenue Commissioner and the Deputy Commissioners concerned.

The following letters from the Revenue Commissioner in Mysore, submitting copies of his notes of inspection of the Taluk Offices of Mandya, Nanjangud, Chamrajnagar, T.-Narsipur, Malvalli, Mysore, Seringapatam and Yedatore, the Sub-Taluk Office of French Rocks, the Mysore District Office and the French-Rocks Sub-Division Office:—

(1) No. 11596, dated 17th May 1910.
(2) No. 12889, dated 24th June 1910
(3) No. 402, dated 8th July 1910

No. R. 3091-9—L. R. 458-09-15, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER THEREON.—The inspection notes disclose an unsatisfactory state of affairs in almost all the offices concerned and show that the accumulation of arrears is every where considerable chiefly owing to the fact that no attention is paid to the standing order of Government requiring the preparation and scrutiny of arrear lists in the Taluk, Sub-Division and District Offices with a view to check delay in the disposal of receipts.

2. The annexed statement shows the number of references which remained unanswered and the number of darkhasts which were pending disposal in the several offices on the dates of their inspection and the oldest dates to which some of them relate.

3. The Mysore Taluk has the largest number of unanswered references pending, *viz.*, 265, leaving out the Mysore District Office, and in the Nanjangud Taluk Office the oldest of the references dated 21st April 1899 is pending. Mandya has the largest number of darkhasts pending disposal, one of which dates from 16th June 1901.

4. It is stated that no attempt has been made in the Taluks of Mandya, Nanjangud, Malvalli, Yedatore and Seringapatam to inspect bandhs according to the instructions issued by the Revenue Commissioner. This is very unsatisfactory.

5. Advances made years ago from imprest money in some of the taluks have not yet been adjusted. A sum of Rs. 26-2-5 spent in 1895 in the Malvalli Taluk for repairing a breach in the Sulekere channel is still remaining unadjusted owing to the loss of records, and another sum of Rs. 27-8-0 expended from the permanent advance of the T.-Narsipur Taluk between March 1905 and October 1909 and a third sum of Rs. 35-4-0 spent from the Municipal imprest of T.-Narsipur in February and December 1908, similarly remain unadjusted. In the Nanjangud Taluk under the head Amildar's personal imprest amounting to Rs. 209-9-5 are included various sums received for expenditure for different purposes but remaining unspent. Part of this amount is stated to have been spent for purposes quite unconnected with those for which it was intended.

6. The above state of things reflects unfavorably on the Taluk Officers concerned. It is desirable that the Deputy Commissioner should take early steps to depute a responsible official from his office to check the imprest accounts in the taluks and see to what extent moneys spent have remained unaccounted for. A special report should also be submitted to Government in this respect with proposals to remedy the existing defects and irregularities and prevent their recurrence. If the amounts remain unadjusted the Government will be obliged to enforce the personal responsibility of the officers concerned to recoup the imprest.

7. It is brought to notice of Government that in the Chamrajnagar and T.-Narsipur Taluks, the grant of saguvali chits on stamped paper is insisted on under the orders of the Sub-Division Officer. This unauthorised practice should be discontinued.

8. Khetwar registers have not, it is reported, been brought up to date in the Taluks of Seringapatam and Mysore and this is a serious cause of delay in the disposal of applications for lands. The Revenue Commissioner is requested to take notice of such culpable inattentiveness to duty and punish the official responsible therefor.

Proceedings of the Government of His Highness the Maharaja of Mysore,

9. In some of the taluks (particularly Yedatore and Malvalli) the progress of work connected with the sorting of records does not appear to be satisfactory. The Amildars concerned should be directed to devote their personal attention to the matter and see that the records are properly arranged in accordance with the rules on the subject.

10. Government trust that defects pointed out by the Revenue Commissioner in several other matters of a miscellaneous nature will be rectified and his instructions strictly adhered to in future and the District and Sub-Division Officers will realize that no improvement can result unless special efforts are made by them by frequent inspections to discover and remove defects.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letters No. 11599, dated 18th May 1910, and No. 11654, dated 21st May 1910, from the Revenue Commissioner in Mysore, submitting copies of his notes of inspection of the Taluk Offices of Arsikere, Hassan and Hole-Narsipur and the Hassan District Office.

No. R. 3109-17—L. R. 458-09-17, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER THEREON.—The annexed statement shows the number of references which remained unanswered and the number of darkhasts which were pending disposal in the several offices on the dates of their inspection, and the dates of the oldest of such references.

2. From the statement it will be seen that the largest number of unanswered references is in the Hassan Taluk Office and that the oldest of them is dated 12th May 1894. In the Arsikere Taluk so many as 515 applications for lands are pending disposal and in the Hole-Narsipur Taluk a darkhast dated 1st April 1899 is still pending disposal. It is also brought to notice in the note of inspection of the Hassan District Office that the statements of remissions submitted by the Amildar of the Hassan Taluk for the years 1902-03 and 1906-07 have been lying without any action being taken on them in the Deputy Commissioner's office from 31st August 1903 and 24th September 1907 respectively. The large number of pending papers and the confusion that is found to prevail in their disposal are stated to be chiefly the result of the omission to prepare lists of unanswered references regularly and subject them to check periodically. This is very unsatisfactory.

3. It is also stated that no attempt has been made in the Hassan Taluk to arrange for the inspection of boundary marks and that in the Hole-Narsipur Taluk no action has been taken for repairing boundary marks in disrepair. The Revenue Commissioner is requested to take notice of the conduct of those at fault in this and other cases of omission and negligence which come under his observation.

4. Expenditure from the permanent advance has been left unadjusted for a very long time in the Hassan Taluk and the oldest item dates from the 14th August 1888. In the same taluk undisbursed amounts and contributions and subscriptions received from people have remained unadjusted for a very long time. The attention of the Deputy Commissioner is invited to this with a view to his taking early action and submitting a report to Government.

5. The sorting of records does not appear to have been done satisfactorily in any of the taluks. The Amildars concerned should be directed to devote their personal attention to the work and get the records arranged in accordance with the rules on the subject. The neglect in getting khetwar registers in the Hassan Taluk written up to date is most reprehensible.

6. Government would be glad if the Revenue Commissioner gives in his future inspection reports the names of the officers (Amildars and Assistant Commissioners) in charge of the taluk and the period during which they have been in charge.

Letter No. 11940, dated 26th May 1910, from the Revenue Commissioner in Mysore, submitting for information a copy of his notes of inspection of the Davangere Taluk Office in the Chitaldrug District. (Amildar in charge is Mr. T. Venkataramaiya.)

No. R. 3100-8—L. R. 458-09-16, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER THEREON.—On the date of inspection, *viz.*, the 24th April 1910, there were in the office 85 unanswered references, the earliest of which was dated the 16th June 1908, and 52 applications for lands pending disposal, one of which dated 23rd October 1908, was the oldest. These figures are stated to be not verifiable as no arrear lists are prepared in accordance with the standing orders of Government, nor are references carefully marked from one register to another. The omissions noticed above are reprehensible and it behoves the District Officers to take steps to ensure that this unsatisfactory state of things does not continue.

2. It is stated that no attempt has been made in the taluk at the inspection of boundary marks in accordance with the instructions issued by the Revenue Commissioner. This is also unsatisfactory.

No. R. 3118-27—L. R. 136-10-1, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER.—The Revenue Commissioner is empowered by para 5 of Government Order No. R. 3105-44—L. R. 212-06-1, dated the 11th September 1906, and Government Order No. R. 985-6—L. R. 542-07-2, dated the 13th August 1908, to sanction refunds under Land Revenue, Salt, Sayer and Mohatarfa. But in cases of the refund of other moneys realized by Revenue officers, such as fines, forfeitures, license fees to cut trees on Government waste lands, fees produced for copies of survey records, etc., the refund bills are at present submitted to Government for sanction, on the ground that the items are credited to "XIX. Miscellaneous" in the Treasury Accounts, over which the Revenue Commissioner has no control. Government, however, consider that there is no object in reserving in their hands the power to refund only such minor items of revenue which are also realized by Revenue officers, and accordingly direct that the Revenue Commissioner may, in future, sanction the refund of such items credited to "XIX. Miscellaneous" as are realized in the Revenue Department.

Subject No. 79 of the Proceedings of the Representative Assembly of 1909 in the matter of the recovery of assessment accruing due on a land between the date of its forfeiture and sale for arrears of revenue due thereon and that of the confirmation of sale.

No. R. 3134-42—L. R. 497-09-1, DATED BANGALORE, 11TH NOVEMBER 1910.

ORDER THEREON.—The Government have in their Proceedings No. R. 1783-91—L. R. 69-08-2, dated the 14th September 1908, directed that, though under Section 191 of the Land Revenue Code, the auction purchaser is liable for all instalments of land revenue becoming due subsequent to the date of the sale of the land, a partial or total remission of such subsequent instalments might be granted if the circumstances of any particular case rendered the grant of such a concession equitable. It is therefore unnecessary to issue a hard and fast rule in the matter. Government, however, consider it desirable that officers conducting the sales should, in cases where they are not competent to confirm them, submit their reports to their immediate superior without any delay; and the latter should dispose of the cases within a period not exceeding three months from the date of their submission. This procedure will, if strictly followed, put an end to unnecessary delay in the confirmation of sales, and also inconvenience to parties and loss of revenue to Government caused thereby.

Subjects Nos. 241 of 1906, 139 of 1907, 172 and 342 of 1908 and 170 of 1909 of the Proceedings of the Representative Assembly and the Reply of Government:—

Subject No. 241 of 1906.

Summary of discussion.—Lantana bushes are rooted out by means of elephants in Coorg. No arrangements are made to root out this shrub which has devastated several villages in Bettadapur and other Hoblis. It takes away fertility of the soil and at last becomes so powerful that the villagers of their own accord give up the villages for fear of lantana and go away. Hence immediate remedy is required.

Reply of Government.—The rules in force and the practice obtaining in Coorg will be ascertained and necessary steps taken in the matter.

Subject No. 139 of 1907.

Summary of discussion.—Last year Government were pleased to state that the rules in force regarding the removal of lantana and the practice obtaining in Coorg would be ascertained and necessary steps taken in the matter. Early orders are requested. People should be compelled to remove lantana as in Coorg.

Reply of Government.—A good suggestion. The matter will be considered.

Subject No. 172 of 1908.

Summary of discussion.—Early orders are prayed for concerning the destruction of lantana which is causing great hardship by its abundant growth. Raiyats may be prohibited from planting it for hedges, etc. Government should arrange to remove lantana growing on Sircar lands and direct raiyats to remove it from their holdings.

Reply of Government.—The matter is under correspondence and will be considered. A Committee composed of the Conservator of Forests, the Revenue Commissioner and one or two Deputy Commissioners will be formed and the question referred to them for report.

Subject No. 342 of 1908.

Summary of discussion.—In the Malnad parts lantana grows wild and many good lands become covered with it in a short time and the bushes afford cover to wild beasts. Rules may be passed directing the removal of the weed from occupied lands by the occupants thereof and from unoccupied lands by the patels of the villages concerned.

Reply of Government.—A Committee composed of the Excise Commissioner, the Conservator of Forests, the Revenue Commissioner and one or two selected Deputy Commissioners will be formed and the question referred to them for report.

Subject No. 170 of 1909.

Summary of discussion.—(1) Lantana and other rank shrubs are growing to an alarming extent. The systematic removal of these may be undertaken every year during the wet weather. A certain amount of money from the Local Funds or Provincial Revenue may be allotted every year for the purpose.

(2) As lantana has been steadily growing wherever it has taken root and has rendered several towns and villages insanitary, besides affording shelter to wild animals and reptiles, it is necessary that all persons should be compelled to destroy the shrub in their holdings completely. An order to this effect may be passed, as there appears to be no other way of destroying this shrub. The Forest Department should take steps for the removal of lantana in the Forests.

(3) The Lantana Extirpation Act should be introduced into the State. A penal law is necessary.

Reply of Government.—Municipalities may frame bye-laws for the removal of lantana. Government also have the subject under consideration.

Letter No. 7394, dated the 25th January 1910, from the Revenue Commissioner in Mysore, with the proceedings of the Committee :—

With reference to Government Order No. 10005-21--L. B. 266-08-3, dated 12th April 1909, ordering the formation of a Committee consisting of the Excise Commissioner, the Conservator of Forests, the Deputy Commissioners of Mysore and Kadur and myself to investigate the question of destroying and checking the excessive growth of lantana and submit suggestions that may be necessary and practicable, and in continuation of this office letter No. 6636, dated 6th January 1910, I have the honor to state as follows :—

2. Nearly a year previous to the order of Government under reply, in February 1908, at the instance of Mr. A. Pilkington, I invited the attention of the Deputy Commissioners of the districts of Mysore, Hassan, Shimoga and Kadur to an extract from the orders of the Government of Coorg relating to the grant of lands overgrown with lantana and to Subjects Nos. 241 of 1906 and 139 of 1907, of the Proceedings of the Dasara Representative Assembly and called for their opinion on the subject. Copies of replies received from these officers, as noted below, are appended to this letter for information of Government :—

Enclosure D. Copy of letter No. 396, dated 6th March 1908, from the Deputy Commissioner, Kadur.
Do E. Copy of letter No. 955, dated 8th June 1908, from the Deputy Commissioner, Mysore.
Do F. Copy of letter No. 831, dated 27th June 1908, from the Deputy Commissioner, Shimoga.
Do G. Copy of letter No. 92—R., dated 26th August 1908, from the Deputy Commissioner, Hassan.

3. The Committee met at the Public Offices, Mysore, on Monday the 30th May 1909 at 3 P.M. and I herewith submit in original, for the information and orders of Government, the proceedings of the meeting along with the Office Note and the opinions recorded by the members of the Committee, as also extracts (to be obligingly returned when done with) from orders in force in Coorg on the subject and also the Note of the Conservator of Forests on the cost of eradicating lantana received on the 21st January 1910.

4. My final recommendations on the subject are as follows :—

(*a*) Departments of Government like the Forest, the Excise and the Amrut Mahal which own large areas of land, should be allowed to deal with the question of keeping their lands clear of lantana in the best manner which suggests itself to them and they should be held responsible for the clearance of lantana gradually in such tracts so that lantana grown in such reserved lands might not spread to the neighbouring areas and also as an object lesson to the raiyats as to how the land can be rid of this noxious growth.

(*b*) In regard to assessed and unassessed Government waste lands overgrown with lantana, the Deputy Commissioners of Districts may be empowered to grant such lands for cultivation (*on their own initiative and without the previous sanction of Government*) free of kandayam for a maximum period not exceeding 20 years, the period in each case being fixed by the Deputy Commissioner in proportion to the extent of land overgrown with lantana, the cost involved in eradicating it and the time which may elapse before the raiyat who embarks on such clearing can expect to reimburse himself the outlay he has had to incur. The cost of eradicating lantana for an acre of land is estimated by Mr. Muttannah, B.B., at Rs. 20. The period of time is not stated. But, we may put it at from 1 to 3 years. Seeing how heavy the cost is, I do not think in the case of dry lands, it will be profitable for raiyats to undertake the work, unless the period of free grant extends to about 15 years at the least. So I would fix only the maximum period as 20 years and leave ample discretion to the Deputy Commissioners in deciding upon the exact period which each applicant may deserve. Naturally wet lands may not require as many years as dry lands and there may be local circumstances, facilities or obstacles, all of which may have to be taken into consideration. The period of 10 to 12 years fixed by the majority of the members of the Committee is not sufficient if the cost should amount to Rs. 20 per acre and, I may add, this information was not before the Committee at the time they fixed the period. The Deputy Commissioners may be empowered to grant only lands the assessment on which does not exceed Rs. 25 per annum. In cases in which this amount is exceeded the sanction of the Revenue Commissioner or of Government may be prescribed. Every year in the Revenue Administration Report a para or two should be devoted by the Deputy Commissioners to the work done in their districts in this direction and they should therein indicate the extent of lands granted free of assessment of their own accord and with the sanction of higher authority and the extent of land cleared of lantana. The remission of kandayam should be sanctioned annually by the Jamabandi Officer after satisfying himself that the conditions of the grant have been complied with and he may be empowered to reduce, whenever necessary, the amount of remission and levy such portion of kandayam for the year as may be reasonable under the circumstances. Deputy Commissioners may also be empowered to grant takavi advances for the clearance of lantana.

Land Revenue, dated 18th November 1910.

(*c*) In the case of private sites in Municipalities and village sites, the Village Sanitation Rules should be rigorously enforced and the owners and the villagers should be persuaded to keep the land clear of lantana. There should be a provision enabling the Sanitary Department in such cases to clear the ground and recover the cost from the owners or those interested in the land. As a correlative to this, the Sanitary Board should be held liable to remove the nuisance on public lands of which they must be held to be custodians.

(*d*) In the case of occupied lands on which assessment is being regularly paid, overgrown with lantana, I would propose that all action be deferred for the present and that taluk officers may be requested merely to convince the owners of the danger they are inviting by keeping their lands infested with lantana.

(*e*) I would also recommend that for the present the Deputy Commissioners may be asked to specify the areas in each taluk to which the concession of free grant of land may be extended and that the grant of land be restricted to such areas, so that Government may have time to judge of the effect of the new rules.

(*f*) Allied questions such as extending the concession to lands overgrown with prickly pear and the difficulty of keeping gomal lands free of these in villages in the malnad where population is very sparse may be taken up for solution in the future in the light of the experience gained in the working of the above rules.

5. The note of the Conservator regarding the use of lantana within certain limits and cost of eradication may be published in the Government Gazette for public information.

ENCLOSURE A.

Note.

The Committee appointed by Government in Proceedings No. 10005-21—L. B. 266-08-3, dated 12th April 1909, to consider the question of eradicating lantana in the Districts of Shimoga, Mysore, Kadur and Hassan met at the Public Offices, Mysore, on Monday the 30th May 1909 at 3 P.M.

There were present—

President.

(1) Mr. A. Rangaswami Iyengar, B.A., B.L., Revenue Commissioner.

Members.

(2) Mr. H. H. Sparkes, Excise Commissioner.
(3) Mr. M. Muttannah, R.B., Conservator of Forests.
(4) Mr. M Kantaraj Urs, B.A., Deputy Commissioner, Mysore District.
(5) Mr. K. R Srinivasa Iyengar, M.A., Deputy Commissioner, Kadur District.

The Government Order appointing the Committee and a precis of the replies received from the Deputy Commissioners of the four districts were read. The President explained the bearings of the subject and the following office note was also read :—

Office Note.

Lantana grows extensively in the malnad and semi-malnad tracts but rarely in the maidan. The latter tracts may therefore be left out of account. The reports of the Deputy Commissioners may be summarised as follows :—

The Deputy Commissioner, Shimoga, states that the maidan taluks of Channagiri and Honnali are pretty free from the ravages of this shrub, while in the malnad and semi-malnad taluks it is to be found growing luxuriantly on the sides of roads, in abandoned or unoccupied village sites and near gardens and that its growth near cultivation is carefully prevented by raiyats as a rule.

The Deputy Commissioner, Hassan, states that about 22,000 acres of occupied lands and nearly 50,000 acres of unoccupied lands in the Taluks of Manjarabad, Belur, Channarayapatna and the Sub-Taluk of Alur are overgrown with lantana and that in other malnad and semi-malnad tracts also it grows in a wild form, but does not exist in the maidan taluks.

The Deputy Commissioner of Mysore states that lantana grows luxuriantly in the Hunsur Taluk.

The Deputy Commissioners of Mysore, Hassan and Shimoga are of opinion that the rule in force in Coorg may be adopted in Mysore with suitable alterations according to local conditions; while the Deputy Commissioner of Kadur thinks that Rule 44 of the Land Revenue Rules is quite sufficient but that the Deputy Commissioners should be empowered to dispose of the land as provided in the old rule to save delay.

It is desirable to discuss generally what measures may be taken by Government for the eradication of the pest and what are the concessions which may be allowed for this purpose.

It may be premised that it would be a waste of money and labour to attempt to destroy lantana on lands which are not likely to be required for purposes of cultivation, as the plant is sure to spring up again and become wildly luxuriant unless it is kept out by other crops being grown on the land. It may be desirable to deal with the question with reference to the different classes of land.

(1) Assessed and unassessed Government waste lands.—To remove overgrowth of lantana on these lands, they may be offered for cultivation under Rule 44 of the Land Revenue Rules on favorable terms according to the state of the land, the land being held free of assessment for a maximum period not exceeding 20 years with stringent conditions for annual eradication of the pest from at least 1/10th of the area given, so that the whole land would be cleared in 10 years and the raiyat might be able to enjoy the land free of assessment for 10 years more. The period of 10 years provided in the old rules or the Coorg Manual is not likely to be a sufficient inducement in the worst cases. It may also be stated that the provision contained in the old Rule XX, clause 18, authorizing the Deputy Commissioners to grant such lands on progressive kowl provided the full assessment of the land does not exceed Rs. 200 be revived to save frequent reference to Government.

(2) Occupied lands.—So long as the occupant pays the assessment on his lands, he is entitled to deal with them as he likes and Government cannot in fairness interfere to compel him to keep them clear of lantana, etc., unless they form a menace to public safety and health by their being in close proximity to habitation. The old Land Revenue Rules of the Bombay Presidency had a provision—*vide* Rule 52 and clause 2 (*e*) of Rule 111—to prevent such cases but it has been omitted from the revised rules.

Rule 52.
"No occupant of any land may suffer such land to be or to become overgrown with prickly pear or rank grass so as to become dangerous to the health or safety of the neighbourhood."
111. 2. (*e*). "Whoever shall suffer his land to be or to become overgrown with prickly pear or rank grass so as to be dangerous to the health or safety of the neighbourhood shall be punished with fine which may extend to five hundred rupees."

(3) Village sites.—When private sites or lands in villages are overgrown with lantana, the occupants may be required to remove the same in accordance with Rule 6 under Section III of the Village Sanitation Rules. As regards villages to which the Village Sanitation Rules have not been extended, such a provision will have to be made and brought into force, if our Police Regulation contain no such provisions. The provision contained in Section 33 of the District Police Act (Bombay Act VII of 1867) may also be referred to.

III (6).
"No owner or occupant of a house, building or land within the boundary of a village shall permit the same to be in a filthy or unsanitary state or overgrown with weeds or noxious vegetation."

In Municipal limits a similar provision should be enforced in respect of occupied lands. As regards unoccupied lands in Municipalities or villages, the community or Government should take the necessary steps to clear the lantana. When lantana prevails in defined tracts or portions of villages without any habitation, such parts may be transferred to cultivation.

(4) In State Forests and Amrut Mahal Kavals, the Department concerned may be left to take necessary action where lantana or other noxious vegetation is likely to interfere with the free growth of trees or grass respectively.

(5) Along the sides of roads, the Department in charge of the roads should undertake to keep them clear."

3. Mr. Sparkes read portions of the papers bearing on the subject, kindly given to him by Mr. Harris regarding the procedure adopted in Coorg and the progress achieved therein in the eradication of this pest. This collection of papers contains very interesting and valuable information and it is appended to this note.

4. Mr. Muttannah kindly agreed to give the Committee a note on the best mode of eradicating lantana and the cost involved.

5. Then there was a free and full discussion of the subject in all its aspects.

6. The Revenue Commissioner thought that it would be very helpful if a villagewar statement showing the actual extent of lantana grown on survey numbers is got prepared.

7. Mr. Muttannah said that Amrut Mahal Kavals were overrun by lantana and that in some villages of the Hunsur Taluk, especially in Periyapatna and Bettadapur Hoblis, roads and paths had been choked up completely.

8. There was a general agreement in regard to allowing the Forest and Amrut Mahal Departments to deal with the question of keeping their lands clear of lantana, and that it would be a waste of money to incur expenditure in clearing lands not likely to be immediately brought under cultivation.

Land Revenue, dated 18th November 1910.

9. In regard to assessed and unassessed Government waste lands, three of the members of the Committee except the Revenue Commissioner and the Excise Commissioner were in favour of granting these lands for cultivation free of kandayam for a maximum period of 10 to 12 years on condition of the lands being kept clear of lantana The Revenue Commissioner said that generally it may take 10 years of persistent labour and expenditure to thoroughly reclaim the land and the owner should at least have another 10 years' enjoyment of the land to induce him to undertake so costly and so troublesome a task. The Revenue Commissioner pointed out that 20 years was only the maximum and would apply only to the worst lands and in other cases there was no objection to reduce the term to 10 or 12 years. But all the same he thought a liberal provision was quite necessary if any satisfactory results were to be achieved. The Committee, as a whole, were also in favor of investing the Deputy Commissioners of Districts with power to grant such lands in all cases where the assessment did not exceed Rs. 200, as provided in the old Land Revenue Rules.

10. In the case of occupied lands, the Revenue Commissioner adhered to the view expressed in the office note, that Government need not interfere unless the growth of lantana on such lands proved a menace to public safety and health. Mr. H. H. Sparkes, however, was strongly in favour of showing some concession to owners of occupied lands and he proposed that in such cases the assessment may be excused for a period of five or seven years, on the precedent followed in Coorg. The Revenue Commissioner expressed his apprehension that such a condition may in some cases offer a premium for the wilful growth of lantana on occupied lands in the hope of eventually getting a remission of kandayam for a number of years subsequently. Mr. Muttannah also seemed to favor the proposal of Mr. Sparkes. It was considered that the decision of this question might be delayed pending results of the policy pursued in Coorg in this respect.

11 In the case of private sites and other communal lands in villages, the Committee were agreeable to the village sanitation rules being extended and the owners or the villagers being compelled to keep the lands clear of lantana and also to enforce a similar rule in the case of occupied lands in Municipal areas.

12. The Committee then dispersed and it was agreed that this report of the meeting after circulation to the members be submitted to Government for information and orders.

Note by Mr. H. H. Sparkes, dated 6th June 1909.

I have nothing further to add except that I think that the Forest Department should desist from taking up lantana-grown land as a plea for the propagation of sandal within occupied village sites such as Periyapatna, etc. On receipt of the information from Coorg as to what steps have been taken regarding lantana on occupied lands, I will forward it to the President.

Note by Mr. M. Muttannah, dated 15th June 1909.

The Periyapatam fort is neither a State Forest nor a sandal reserve. I am sure that no one who has any knowledge of the working of the Forest Department will doubt that it is better to keep waste lands under the Forest Department which possesses the requisite machinery for their conservancy than to leave them ownerless.

The note promised by me will be furnished on receiving particulars as to cost of eradication of lantana from Coorg.

Opinion of the Deputy Commissioner, Mysore District—Mr. M. Kantaraj Urs, dated 3rd September 1909.

Lantana grows wild and luxuriously in the semi-malnad taluks of this district, *viz.*, Hunsur and Heggaddevankote. In fact, it has become nothing short of a pest.

The Forest and the Amrut Mahal Kavals mostly form the chief nucleus from which this pest radiates. Unless these two Departments take vigorous measures simultaneously to rid thoroughly such of their lands as are in close proximity to cultivation of this pest, there is not much chance of getting arable and kharab lands attached to a village completely free from this pest, try what we may.

The villagers should be insisted upon to keep their village site and all the Government land thrown open for communal purposes free from this pest. This task should be imposed upon them as a sort of obligation. If they fail to comply with this obligation, Government will step in and do the needful recovering the cost from the whole villagers as a revenue demand.

The assessed waste land (unoccupied) should be given out for cultivation, rent-free for a period not exceeding 20 years, discretion being given to the local authorities to prescribe the exact number of years in each case on its merits.

Similarly in case of Government unassessed waste lands, such lands may be given out either free or for a mere nominal price to the applicants in the order of their application, and a remission of assessment as in the case of assessed lands be conceded for a period not exceeding 20 years.

No concession seems called for in the case of occupied assessed lands except the grant of "Takavi" for the purpose at a low rate of interest or in exceptional cases without any interest.

Rule 6 under Section III of the Village Sanitation Regulation should be extended to all villages where Lantana is, or threatens to become, a pest.

In Municipal areas, the unoccupied lands and sites should be cleared of this pest by the Municipalities concerned. As regards the occupied lands and sites, the owners thereof are bound to keep them clear on pain of prosecution under the Regulation itself.

The instructions conveyed in the standing order No. 20 of 1907-08, of the Commissioner of Coorg, may with advantage be introduced into Mysore, *mutatis mutandis.*

I should recommend in this connection that the lands covered with prickly pear and croton be also treated similarly, for the reason that both these kinds of noxious vegetation are becoming just as much a nuisance as their rival the "Lantana" and if their wild growth is not checked at once, it might become as formidable a task in future as the eradication of lantana now presents itself to be. The Taluks of Malvalli, Gundlupet and Chamrajnagar chiefly are infested badly with prickly pear and Seringapatam Kasba with croton. In parts of Hunsur and Heggaddevankote Taluks, prickly pear is growing just as wild as lantana and side by side too.

Memo by the Deputy Commissioner, Kadur District—Mr. K. R. Srecnivasiengar, dated 11th October 1909.

The lands to be dealt with for the clearance of lantana may be classified under the following heads:—

(1) Lands under the control of special Departments as Forest, Excise, Amrut Mahal, etc.

(2) Lands under the control of the Revenue Department.—

(*a*) Assessed and unassessed Government waste lands, including Hulbanni Kharab.
(*b*) Assessed lands in occupancy.
(*c*) Gomal and other free communal lands.
(*d*) Private sites in villages and Municipalities.
(*e*) Sites not belonging to private individuals in Municipalities and villages.

Each of the above classes requires different kind of treatment.

2. In the case of (1) lands under the control of special Departments, the Department concerned should take necessary measures to eradicate lantana from the lands: and such eradication should be particularly insisted on in the vicinity of buildings and of occupied and unoccupied assessed lands.

3. In the case of 2 (*a*) assessed and unassessed Government waste lands, the clearance of lantana on them may be encouraged by offering them free of assessment for a certain number of years as proposed by the Committee. I think, however, that the maximum term for which the assessment may be remitted should be 12 years. In the case of jungles taken up for coffee cultivation, even a shorter period will, I think, be sufficient. The remission should be sanctioned annually by the Jamabandi officer on the Takrar Takhta after satisfying himself that the prescribed extent has been cleared as per conditions of the grant.

In respect of waste lands which are not applied for for cultivation, the clearance will have to be undertaken by Government. I think that the Deputy Commissioner may be authorized to utilize, at his discretion, the whole or any part of the Hulbanni realization from each village for the clearance of lantana on the waste lands therein.

4. The question of the clearance of lantana on assessed lands in occupancy is rather difficult of solution. In the case of lands already under occupancy, it is certainly not possible to insist on the clearance of lantana except when it is necessary in the interests of the safety of the people living in the neighbourhood. But with respect to future grants, I do not see why the clearance of lantana cannot be made one of the conditions of the grant, failure to adhere to it rendering the land liable to resumption.

As regards the proposal made by Mr. Sparkes to remit the assessment on occupied lands to induce the occupants to clear them of lantana, I am unable to express my agreement with it, as it will, as remarked by the Revenue Commissioner, only hold out a premium to the occupants for neglecting the lands and then claiming the proposed concession to rectify the damage arising from their own neglect.

Land Revenue, dated 18th November 1910.

5. In the matter of gomal and other free communal lands, there must be considerable difficulty in keeping them clear of lantana. Where these lands are not unwieldy in extent and the village to which they are attached is a fairly populous one, it may be possible for the local officers to bring out the destruction of the shrub to an appreciable extent by bringing pressure to bear on the villagers and warning them with a withdrawal of their communal privileges if they do not keep the lands clean. But in the villages (which form the majority in the malnad) in which the population is scanty and the gomal and other communal lands are extensive in extent, it must be impossible to induce the villagers to do any appreciable work in this direction.

6. The case of lantana growing on private sites within village sites or in Municipalities will not present any difficulty, as the owners can be compelled to keep the sites clear by the application of Village Sanition Rules in force. Nor will there be much difficulty about public sites in Municipalities, as each Municipal Board will be bound to keep all its sites clear and it can generally find the required funds for the purpose. As regards public sites (*i.e.*, sites not belonging to private individuals) in villages, there will be some difficulty, as the clearance of lantana cannot be made obligatory on the part of villagers. In places where there is an influential patel and the villagers work in harmony, this work may be carried out by them; but in other places it will have to be undertaken from District Funds supplemented by grants from Local Funds General wherever necessary.

7. I do not think, for obvious reasons, that the adoption of the Coorg system of issuing certificates to patels and raiyats for good work done by them in the clearance of lantana will be attended with much success.

ENCLOSURE C.

Note on the eradication of lantana by the Conservator of Forest, dated 19th January 1910.

Lantana is an essentially light-loving climbing shrub. It will only grow and thrive where the original forest growth has been cleared for cultivation or other puposes. It is extremely intolerant of shade, especially of evergreen trees. The best and surest means of eradicating it, therefore, is by planting thickly the area with evergreen trees such as, figs, mango, nerle, honge and jack, though the process is rather slow, and by strictly preserving the area thus operated upon from fires. Fire, while killing out the old stems and other tree-growth, stimulates the growth from stools, and instead of destroying it, tends to lengthen its life and increase its vigour. Lantana is not such an unmitigated evil as is made out by non-observant people. It is a valuable agent for clothing denuded areas with trees. It forms a most valuable nurse for tree-growth and protects the seedlings and saplings from injuries and damage from man, cattle and wild animals. Thousands of sandal, honne and other trees may be found growing under its shelter which, but for the protection afforded by it, would not have come into existence at all. As a soil improver, it is unapproached, for it not only prevents erosion of the surface soil, but also enriches it by the deposit of dead leaves and branches and renders the poorest of lands suitable for cultivation.

Its value as an agent for stocking areas denuded of forest growth, being undoubted, I would strongly deprecate its eradication in areas not required for cultivation or pasture, especially in the hills.

As grazing and cultivations are of paramount importance, I would discourage its growth wherever lands are required for these purposes.

The best way of getting rid of lantana is to burn it in February or March. This renders subsequent operation easier. Then in March or April, cut the stems, heap them up and burn the heaps, and later on in the early rains dig out the roots. Fragments of roots shoot up again and seeds germinate in large numbers. These must be removed in October. Two more weedings are necessary to rid the area completely. This must be done in June of the second and third year.

If there is much sandalwood or other valuable growth which has to be preserved, the operation becomes more expensive. In this case, burning of the shrub as it stands should not be allowed, but it must be cut, heaped and then burnt.

The cost of eradicating lantana in an acre may be estimated as follows :—

	Rs.	a.	p.
First burning	0	8	0
Cutting, piling and burning ...	10	0	0
Digging out roots	4	0	0
First weeding	2	8	0
Second do	2	0	0
Third do	1	0	0
Total ...	20	0	0

Proceedings of the Government of His Highness the Maharaja of Mysore,

If the shrub is not burnt in the first instance, there will be an additional charge of Rs. 5.

ENCLOSURE D.

Letter No. 396, dated 6th March 1908, from the Deputy Commissioner, Kadur District, to the Revenue Commissioner in Mysore.

With reference to your docket No. 9194-97, dated 25th—27th February 1908, calling for opinion regarding the grant of lands overgrown by lantana, I have the honor to state that Section 44 of the Mysore Land Revenue Rules of 1901 provides for the grant either revenue free or at a reduced assessment for a certain term of lands the bringing of which under cultivation will be attended with large expenditure; and hence no separate provision appears to be necessary with regard to lands overgrown by lantana.

2. In this connection I beg to state that under Rule XX, Clause 18, of the old rules of 1890, the Deputy Commissioner had power to grant lands overgrown with prickly pear, etc. on progressive Cowle varying in periods from 1 to 10 years provided the full assessment of the land does not exceed Rs. 200, but Section 44 of the Revenue Rules of 1901 provides granting of such lands with the sanction of Government either revenue free or on reduced assessment for a certain term, etc.

3. As the procedure indicated in Section 44 of the Revenue Rules of 1901 is likely to cause delay in the granting of the lands overgrown by prickly pear, lantana, etc., for cultivation, I beg to state that it seems to be desirable to restore to the Deputy Commissioners the power given to them under the old rules to grant lands assessed at less than a prescribed maximum amount either revenue free or at progressive rates of assessment.

ENCLOSURE E.

Letter No. 955, dated 6th June 1908, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

Adverting to your Circular No. 9194-97 of the 25th February last calling for my opinion on the grant of lands overgrown with lantana for cultivation or pasture as per Rule 259 of the Coorg Revenue manual, I have the honor to annex in the margin the opinions of the several Sub-Division Officers and to state that I am of opinion that the rule in force in Coorg may also be safely followed in Mysore with the additional condition that the raiyats should not allow their holdings to be overgrown with lantana or prickly pear or croton as pointed out by the Mysore Sub-Divisional Officer.

Sub-Division Officer, Mysore Division.

The Coorg rule may be introduced as it is very necessary to check the spread of lantana especially in the Hunsur Taluk. Government may also consider if it is not desirable to frame a rule to the effect that raiyats should not allow their holdings to be overgrown with lantana or prickly pear and thus rendered unfit for cultivation. It is said that such a rule is in force in the Bombay Presidency *vide* Mr. Narasinga Rao Purniah's Administration Report for 1904-05, page 28, Kolar District, of the printed reports.

Sub-Division Officer, Nanjangud.

The undersigned is of opinion that the rule in the Coorg Revenue Manual may be adopted here; may, it may be made applicable to prickly pear too.

Sub-Divisional Officer, French Rocks.

The practice obtaining in Coorg may very well be introduced in Mysore.

ENCLOSURE F.

Letter No. 831, dated 27th June 1908, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore.

With reference to your No. 9194-97, dated 25th—27th February 1908, calling for opinion regarding the grant of lands overgrown with lantana for cultivation, I have the honor to state that the rule which is in force in Coorg may with advantage be introduced here also as several valuable lands have been rendered unfit for cultivation by the overgrowth

Land Revenue, dated 18th November 1910.

of lantana. The Assistant Commissioner, Sagar Sub-Division, suggests that the rule may be modified so as to include cases of wet lands overgrown with lantana. I agree in his suggestion. The rule may stand as follows:—

"If land at the disposal of Government is overgrown with lantana, it may be granted for cultivation or pasture free of assessment."

(1) For a period not exceeding three years in the case of wet lands and (2) for a period not exceeding ten years in case of dry or unassessed waste lands, provided it be kept clear of lantana failing which assessment may be levied with retrospective effect."

ENCLOSURE G.

Letter No. 92—R., dated 25th August 1908, from the Deputy Commissioner, Hassan District, to the Revenue Commissioner in Mysore.

Adverting to your docket No. 9194-97, dated 25th—27th February 1908, forwarding for an expression of opinion an extract of orders of the Government of Coorg, relating to the grant of lands overgrown with lantana and inviting reference to Dasara Representative Assembly Subjects Nos. 241 of 1906 and 139 of 1907 in the matter, I have the honor to state that the Assistant Commissioners and Amildars who were consulted in the matter are in favour of granting unoccupied lands overgrown with lantana to persons willing to take up lands for the purpose of cultivation or pasture on terms similar to those mentioned in extract of Rule 259, Coorg Revenue Manual.

2. Provision exists in Rule 44 of the Land Revenue Rules to grant, with the previous sanction of Government, lands which require large outlay for cultivation with special concessions. But as regards the removal of lantana from occupied lands it may be stated that no provision at present exists to enforce its removal except from Gavtans of villages to which the Village Sanitation Rules have been extended where persons may be required to keep their lands free from weeds or noxious vegetation in accordance with Rule 6 under Section III of the Village Sanitation Rules.

3. I would therefore suggest a corresponding provision in the Land Revenue Rules (directed chiefly against lantana and prickly pear) for compelling removal of noxious vegetation from all occupied lands including building sites. The inclusion of building sites, hittals, etc., would be necessary so as to affect villages to which the Village Sanitation Rules have not been extended.

4. Concerning unoccupied lands I am strongly in favor of the introduction of Rule 259 of the Coorg Revenue Manual with necessary modifications such as its applicability to lands overgrown with prickly pear also.

5. I presume that the grant of unoccupied land under such rule is intended to be absolute and not limited to any period for resumption at the end of that period. Such would be quite necessary to offer sufficient inducement to intending applicants who would not come forward unless the grant be absolute, although conditional as to assessment on the terms of the grant being fully complied with. And at the end of a period of ten years fixed for assessment-free occupation, the land, I presume, would be liable to full assessment applicable to the class of land at the termination of the period agreed upon. The latter would be necessary as the resurvey might be introduced in the interval between the grant and the termination of the period for which the land was granted free of assessment.

No. R. 3298-322—L. R. 508-09-2, DATED BANGALORE, 18TH NOVEMBER 1910.

ORDER THEREON.—Government consider the proposals of the Committee to be generally suitable and are of opinion that they should be made applicable also to lands overgrown with prickly pear. They are accordingly pleased to issue the following instructions as a tentative measure.

2. The scheme as to the grant of concessions will, however, be tried in the first instance in selected Hoblis of the Taluks of Hunsur and Mulbagal, and after the result of the experiment for two years is known, the question of extending the concessions to the rest of the State will be considered.

3. With reference to the present subject, lands infested with lantana or prickly pear may be classified into the following three divisions:—

(i) Lands under the control of special Departments, such as Excise, Forest, Amrut Mahal, etc.

(ii) Agricultural lands under the control of the Revenue Department classified into—

(*a*) Assessed occupied.
(*b*) Assessed unoccupied.
(*c*) Unassessed Government waste, including kharab, gomal, etc.
(*d*) Lands set apart for communal purposes.

(iii) Sites (occupied and unoccupied) within the limits of villages and under the control of local bodies.

4. As regards lands of the 1st class, the Departments concerned will be held responsible for the clearance gradually of lantana or prickly pear from all tracts under their control wherever it has extended itself to the prejudice of more useful vegetable growth. They should make special efforts to eradicate it and prevent its growth in such lands so that lantana or prickly pear grown in such reserved lands might not spread to neighbouring areas, and thus furnish an object lesson to the raiyats as to how this noxious growth can be got rid of from their lands. Where any Department is found to be inattentive to this work and such inaction is detrimental to the success of other operations, the Deputy Commissioner of the district will bring the matter to the notice of the higher departmental authorities concerned, and, if they fail to take proper action, report it to Government. A para should be added to the annual reports of these Departments concerning the measures adopted by them for the extinction of the pest and the progress made in that direction year after year.

5. As regards agricultural assessed lands, Government agree that some concessions should be granted in order to encourage persons to take up such lands and render them fit for cultivation by the removal of lantana or prickly pear. The concessions contained in Rule 44 of the Land Revenue Rules are insufficient in the case of such lands as the previous sanction of Government is necessary in each case and the delay which is likely to result in obtaining it will greatly interfere with any systematic operations being started for extirpating the pest. Some special rules empowering the Deputy Commissioners to deal with applications for lands promptly subject to certain conditions and limitations are therefore called for. Government are accordingly pleased to direct that, in tracts to be notified from time to time in the official Gazette, assessed waste lands overgrown with lantana or prickly pear and such portions of unassessed Government waste lands similarly overgrown as may be conveniently made available for cultivation be granted to applicants free of assessment for a period not exceeding twelve years at the discretion of the Deputy Commissioner when the assessment of the land does not exceed Rs. 25, on the following conditions:—

(i) Lantana or prickly pear should be eradicated from a prescribed extent of land every year and the whole area taken up cleared of the pest and brought under cultivation within a period to be fixed by the Deputy Commissioner.

(ii) The period of concession in each case should be fixed with due regard to the extent of land overgrown with lantana or prickly pear, the cost involved in eradicating the pest and the time which may elapse before the raiyat who undertakes such clearing, can expect to reimburse himself the outlay he has had to incur.

(iii) Failure to remove the lantana or prickly pear from the area prescribed in any year, and to keep the area already cleared free from further growth, will render the grantee liable to pay full assessment from the date of such failure.

(iv) The Deputy Commissioner, may for sufficient reasons, extend the total period within which the entire area is to be cleared and condone any default that may have been made in clearing the prescribed extent in any year.

Land Revenue, dated 18th November 1910.

(v) The remission of kandayam on the lands granted as above will be sanctioned annually by the Jamabandi officer after satisfying himself that the conditions of the grant have been complied with. He may also reduce the amount of remission whenever necessary and direct payment of the balance. When the assessment of the land applied for exceeds Rs. 25 but not Rs. 50 the land will be granted by the Revenue Commissioner subject to similar conditions as above. All other cases should be submitted for the orders of Government with the recommendation of the Revenue Commissioner.

(vi) In the case of lands under occupation, there is undoubtedly, as pointed out by the Revenue Commissioner, some possibility of the concessions being abused, but in view of the importance of making organized efforts for eliminating lantana or prickly pear, Government consider it necessary that some special inducements should be provided for the present under proper safeguards for the owners to take measures to overcome the pest. When such lands are found to be overgrown with lantana or prickly pear and the Deputy Commissioner on personal inspection is satisfied that reasonable precaution has been taken by the occupier therof against its ravages and that some special concessions are necessary to ensure its thorough removal, the Deputy Commissioner shall be at liberty, where the land is fairly large in extent, to grant remissions of assessment on such lands for a period not exceeding five years.

(vii) When only a portion of a land to which the concessions are made applicable is so overgrown, the remission to be granted under these rules will be proportionate to the area affected.

(viii) In the case of kharab and gomal lands which cannot be given out for cultivation without affecting the requirements of the people for grazing and other purposes, local officers should endeavour to encourage the raiyats to adopt combined action to remove the pest, subjecting them, in case of non-compliance, to the temporary suspension of the privileges granted to them in respect of the land, if necessary. If the growth is so great as to be a menace to the health of the neighbouring people or a source of obstruction to efforts which are being made for its destruction in the vicinity and its removal is likely to be too costly for the raiyats to undertake and impose too great a burden on them, the clearance should be effected by means of special funds provided by District Funds. Where the existence of lantana or prickly pear in these lands is likely to be injurious to cultivation in the adjacent agricultural land, the owners of the latter may be induced by the grant of concessions similar to those contained in para 5 to check its growth and progress.

The Deputy Commissioner may also grant Takavi advances for the clearance of lantana or prickly pear.

(ix) All lands enjoying the benefit of the above concessions should be periodically inspected and steps taken in case of neglect, to enforce the conditions.

(x) Wide publicity should be given by the local officers to the concessions sanctioned by Government and every encouragement should be given to applicants for the grant of concessions. Their applications should be disposed of without delay.

(xi) A special report should be submitted by the Deputy Commissioners, of Mysore and Kolar after the expiry of a year as to the extent to which these concessions have been taken advantage of and the success that has been attained in the working of the scheme, indicating also the extent of lands granted free of assessment on their own authority and with the sanction of higher authority and the extent of land cleared of lantana and prickly pear.

(xii) As regards the lands of class (iii) in para 2 above, they may either belong or not belong to private individuals. In the case of lands belonging to private individuals, the Village Sanitation Regulation and the rules framed thereunder which are applicable to villages containing 25 houses and above, contain the necessary provisions. Para 6 of section III of the Village Sanitation Rules provides that no owner or occupant of a house, building, or land within the boundary of a

village shall permit the same to be in a filthy or insanitary state or overgrown with weeds or noxious vegetation. This provision will be enforced in the case of private sites overgrown with lantana or prickly pear. A clause will be added to the Village Sanitation Rules making the cost of clearing lantana or prickly pear which, in spite of previous notice, has not been removed within a specified time, recoverable as an arrear of land revenue irrespective of any other penalties to which the holder of the site may be liable under the rules or any other law. In the case of villages which do not contain more than 25 houses, special efforts should be made to induce the people to undertake the removal of lantana or prickly pear themselves, small prizes being awarded to the patels and other village officers who may have taken special interest in the work and cleared the villages of the growth.

(xiii) As regards sites which are not private property, the duty of keeping them clean and free from vegetation lies on the District Board and the Municipal Council, who should employ the necessary labour for it.

(xiv) In Municipalities governed by Regulation VII of 1906, the removal of noxious vegetation is one of the duties of the Municipal Council under Section 54 (*c*) Regulation VII of 1906. The owners or occupiers of private lands or buildings are, under Section 131, bound to remove prickly pear and rank vegetation growing therein and are liable to punishment in case of failure to do so after notice issued by the Municipal Council. Under Sections 154 (6) and 156 (1) of the said Regulation, filth, noxious vegetation, etc., can be got removed by the Municipal Council, the cost being recovered from the owners or those interested in the lands. These provisions will be strictly enforced.

14. A para will be added in the Municipal, District Fund and Sanitary Administration Reports as to the general progress that has been made in checking the growth of lantana and prickly pear.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 21st November 1910.

READ—

Letter No. 1587, dated 1st August 1910, from the Revenue Commissioner in Mysore, submitting for orders the records relating to the appeal of one M. R. Narasimhachar against the order of the Deputy Commissioner, Mysore District, confirming that of the Sub-Division Officer of Nanjangud, declining to remit the wet assessment on portions of Survey Nos. 176 and 178 of Madiganahalli in the T.-Narsipur Taluk.

No. R. 3370-1—L. R. 46-10-2, DATED BANGALORE, 21ST NOVEMBER 1910.

ORDER THEREON.—Portions of Survey Nos. 176 and 178 of Madiganahalli in the T.-Narsipur Taluk as noted in the margin, were classed and assessed as wet at the time of survey and settlement in 1898-99, as being irrigable by the Chikkadevaraya channel. Immediately after the settlement, the appellant's brother Srinivasaiengar, and the appellant himself in 1902, applied that the entire lands might be reassessed as dry on the ground that they are on a higher level than the distributory channel and that arrears of wet assessment claimed might be remitted.

Survey No.		Area	Assessment
		Acres	Rs. a. p.
176 (Wet)	...	1-32	9 4 0
(Dry)	..	0 17	0 4 0
		2-9	9 8 0
178 (Wet)	...	1-31	9 8 0
(Dry)	..	1-16	0 8 0
		3-1	10 0 0

2. The lands in question have been inspected more than once by Revenue officers and the Sub-Division Officer, Public Works Department, and these officers have expressed the opinion that the representation is true and deserving of consideration. The Sub-Division Officer, Public Works Department, has reported that the lands are from 6" to 2' higher in level than the distributory channel and at a distance of about three-fourth mile from it, and that the only remedy lies in the conversion of the lands into dry. In 1906, however, on a reference made by the Deputy Commissioner to the Survey Commissioner, the latter officer decided that, as at the time of classification the lands were duly inspected and such portions of them as could not be irrigated from the channel were classed as dry and the remaining portions as wet, he could not alter the assessment. On this dictum of the Survey Department, the local Revenue authorities declined to remit the arrears of assessment and the Revenue Commissioner has come to a similar conclusion. The Revenue Commissioner, however, submits the case for the orders of Government, as a question of reclassification and revision of assessment is involved, and adds his opinion that the petitioner is labouring under a real hardship.

3. The Superintendent of Revenue Survey has explained that at the time of classification the classers act partly on information obtained from holders of lands, village officers and raiyats generally and partly on their personal observation, and that they do not take the levels of lands as officers of the Public Works Department do. Under the circumstances of this case, he considers that there is no objection to the reclassification of the lands as dry.

4. Government are accordingly pleased to direct that the portions of land in the aforesaid two survey numbers, which cannot be irrigated by the channel water, be reclassified and re-assessed as dry and that the arrears of wet assessment due thereon from the year 1899-1900 remitted.

Letter No. 10470, dated the 19th April 1910, from the Revenue Commissioner in Mysore, submitting for orders, copies of correspondence between the Deputy Commissioner of the Kadur District and the Superintendent of Revenue Survey on the question as to who should issue tittle-deeds for coffee lands, and stating that the Deputy Commissioner would seem to be the proper authority to issue the title-deeds.

No. R. 3464-73—L. R. 415-09-2, DATED BANGALORE, 24TH NOVEMBER 1910.

ORDER THEREON.—When the rules for the settlement of coffee lands on acreage assessment were issued for the first time in 1885, the Superintendent of Revenue Survey was authorised to issue the title-deeds on behalf of Government, as the terms on which the several coffee estates were to be held (*i.e.*, either on permanent settlement or subject to a guarantee of thirty years) had to be decided in the case of each estate and the demarcation of the land had to be made in pursuance of the settlement. Subsequently when the Rules under the Land Revenue Code were framed and issued in 1890, the Deputy Commissioners were authorised to issue the title-deeds for new lands granted for coffee cultivation under Appendix E to the said rules. The Superintendent of Revenue Survey seems, however, to have continued to issue the title-deeds as before.

2. The reason why the Head of the Survey Department was first required to issue the title-deeds, no longer exists, as the settlement of all old coffee estates has been completed long ago and the present grants are confined to individual cases and regulated under the rules and involve no complication. Government therefore accept the opinion of the Revenue Commissioner that the Deputy Commissioner is the proper authority for the issue of title-deeds, and accordingly direct that the same be granted by Deputy Commissioners in future without reference to the Superintendent of Revenue Survey.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Land Survey), dated 22nd November 1910.

No. R. 3408-18—L. S. 17-10-3, DATED BANGALORE, 22nd NOVEMBER 1910.

ORDER.—It has come to the notice of Government that the practice at present is not to note works such as tanks, roads and railway lines constructed since the original settlement in the village maps as soon as they are constructed but to show them in the revised maps that are issued after the revision of settlement. The reasons for this practice are stated to be that prompt intimation is not given to the Survey Department of the construction of such works and that it would cause much confusion in the Survey records to get them corrected every time there is some slight change of a local character. Government are of opinion that village maps cannot be of much use for reference unless they correctly indicate all local features as far as possible up to the latest date.

2. Government are therefore pleased to direct that if it is not possible to cause corrections to be made in the maps and records as soon as the works referred to above are carried out, arrangements should be made to have them marked at least on the copies of the village maps in the local offices. The corrections may be delineated in red ink to indicate their provisional character.

3. The Revenue Commissioner in Mysore and the Chief Engineer of Mysore are requested to issue instructions to their subordinate officers to intimate to the Superintendent of Revenue Survey without delay the appropriation of a survey number to any of the purposes mentioned above, since the original settlement, to enable him to get the maps provisionally or finally corrected as may be convenient. The Superintendent of Revenue Survey is also requested to issue a circular to the field establishment, directing them to bring the maps of all villages kept in the Taluk Offices up to date as soon as possible.

1. Letter No. 64—R. 39, dated 3rd July 1899, to the First Assistant to the Hon'ble he Resident in Mysore, bringing to notice the incorrect demarcation by the Madras Survey n 1887 of the frontier boundary between the village of Nagasamudram, Molakalmuru Taluk, Chitaldrug District, and that of Macheri, Rayadrug Taluk, Bellary District, causing an encroachment upon old Survey No. 104 of the former village to the extent of 4 acres and 16 guntas and requesting that the Government of Madras may be addressed to get the boundary properly demarcated in accordance with the Mysore Revenue Survey of 1872-73.

2. Letter No. 2023-259-99, dated 30th April 1900, from the First Assistant to the Hon'ble the Resident in Mysore, enquiring whether the Durbar accept the suggestion of the Government of Madras to have the boundary dispute settled by joint representatives of both he Governments.

3. Letter No. 8347—R. 2873, dated 25th May 1900, to the First Assistant to the Hon'ble the Resident in Mysore, stating that the Durbar accept the suggestion of the Government of Madras and that Mr. K. Srinivasa Rao, Assistant Commissioner, Chitaldrug District, will be deputed by the Durbar for the purpose.

4. Letter No. 64, dated 19th July 1901, from the Deputy Commissioner, Chitaldrug District, submitting the report of Mr. K. Srinivasa Rao to the effect that a settlement of the dispute could not be arrived at as the Madras representative did not agree with him as to the correctness of the settlement of the boundary in question already effected by the representatives of the Madras and Mysore Governments (Mr. Weld and Mr. Barker) in 1871.

5. Correspondence ending with letter No. 961, dated 29th August 1902, to the First Assistant to the Hon'ble the Resident in Mysore, forwarding copies of reports received from he Superintendent of Revenue Survey in Mysore to the effect that in the interests of both he Governments the reopening of a dispute once authoritatively settled by competent officers f both the Governments in 1871 should not be allowed, and stating that the Durbar fully gree with their Superintendent of Survey in the matter.

6. Letter No. 6413, dated 14th November 1902, from the First Assistant to the Hon'ble the Resident in Mysore, stating that His Excellency the Governor of Madras-in-Council regrets that he is unable to perceive any sufficient reason to hold that the demarcation made by the Madras Survey in 1887 is incorrect.

7. Correspondence ending with letter No. 54, dated 5th July 1904, from the Revenue Commissioner in Mysore, submitting his opinion on the dispute and suggesting that as the ase for Mysore is a strong one based as it is on the Joint Settlement of 1871, a further representation may be addressed to the Government of Madras for a reconsideration of their ecision.

8. Letter No. 2992, dated the 14th September 1906, from the Revenue Commissioner Mysore submitting a detailed report from the Deputy Commissioner, Chitaldrug District, the matter.

9. Letter Pol. No. 403, dated 17th November 1906, to the First Assistant to the Hon'ble the Resident in Mysore, explaining the facts of the case and requesting that as the ecision of the Government of Madras is in conflict with the settlement effected by competent representatives of both the Madras and Mysore Governments in 1871, they may be moved to reconsider their decision and have the boundary rectified according to the settlement of 1871.

10. Letter No. 5854, dated 13th September 1907, from the First Assistant to the Hon'ble the Resident in Mysore:—

"I am directed to acknowledge the receipt of Mr. Chandrasekhara Aiyar's letter Pol. No. 403, dated the 17th November 1906, regarding the disputed boundary between Macheri illage in the Bellary District and Nagasamudram village in Mysore State.

(2) The Durbar state that, when in the course of the operations of the Madras Survey Department in 1887 the boundary line fixed at the settlement of 1871 by Messrs. Weld nd Barker was overstepped, the Mysore local authorities objected to the encroachment and he Madras Survey authorities acknowledging the validity of the objection, agreed to set back heir boundary marks. The Durbar, however, add that the rectification of the boundary eems to have been very imperfectly carried out, as the officers of neither Government appear o have paid sufficient personal attention to the work. With reference to these remarks, the Government of Madras observe that the records show that the error in demarcation was corrected by the Madras Survey Department as soon as it was brought to its notice, that the

Collector of Bellary on the 21st October 1887, informed the Deputy Commissioner, Chitaldrug District, of the rectification of the boundary, that the Deputy Commissioner thereupon directed an Amildar to see if it had been rectified, and that the latter shortly after reported that the rectification had been effected. His Excellency the Governor-in-Council is not therefore disposed to accept the view that the rectification was imperfectly carried out and is unable to reconsider the view communicated to the Durbar in this office letter No. 6413, dated the 14th November 1902 that there is no sufficient reason to hold that the demarcation made in 1887 by the Madras Survey authorities was incorrect.

(3) The Durbar further contend that, according to the settlement effected in 1871 by Messrs. Weld and Barker the boundary in question should run in a straight line as shown in the Mysore Survey Map. The decision of Messrs. Weld and Barker in regard to this question was as follows:—"From the end of the aforesaid boundary along the top of Karre Kattuve southwards to a road between the fields cultivated by the Nagasamudram raiyats, called Korra Kaple, and those by Macheri called Korra Kuttave Kaple, thence, etc." This joint decision is the only document which is signed by both these officers and it must therefore be taken as the authority in accordance with which the present dispute should be decided. His Excellency-in-Council far from wishing to weaken the importance of the 1871 settlement concurs with the Durbar in the desire to maintain its authority. The Durbar observe that the Mysore Maps, following the ordinary survey methods in waste lands, show the boundary in question as a straight line, thereby ignoring the small irregularities in the ridge which, the Durbar admit, is the natural boundary between the two territories. His Excellency-in-Council would observe, however, that this map does not appear to have been accepted by the two Commissioners, whose decision was that the boundary ran along the "*top*" of the ridge. He would further point out that the line as now demarcated by the Madras Survey Department accurately carries out the Commissioner's decision while that claimed by the Durbar would not. In these circumstances, I am to express the regret of His Excellency the Governor-in-Council at his inability to accede to the request of the Durbar to alter any further the boundary line as determined in 1871 and demarcated in 1887."

11. Note dated 2nd October 1907, by Mr. D. Shama Rao, Superintendent of Revenue Survey in Mysore:—

"(1) When settling the boundary in question, the Commissioners have also prepared a sketch showing the boundary as settled by them. A true copy of the sketch and an extract from their joint report are put up herewith.

(2) Both the Commissioners have signed the sketch. Immediate effect was given to their decision by erecting boundary marks on the ground and completing the map of the Mysore village.

(3) Our village map of Nagasamudra shows the boundary in question in accordance with the sketch above mentioned, which has been accepted and signed by the Commissioners. The demarcation made by the Madras Government is not in accordance with the settlement of the boundary line made in 1871. Although the object to be gained by pursuing it is trivial, yet the question is important as involving a matter of principle. It is unwise to distrub authoritative settlements made with the consent and approval of both Governments. Such settlements exist in many parts of the common boundary and should not therefore be disturbed.

(4) I have not forwarded the sketch and joint report in original as these form part of a big bound book containing many old sketches and statements, inconvenient both for transmission and reference."

12. Further Note by the same officer, dated 9th April 1908:—

"In para 3 of the First Assistant Resident's letter No. 5844, dated 13th September 1907, it is stated that "this joint decision is the only document which is signed by both these officers and it must therefore be taken as the authority in accordance with which the present dispute should be decided. His Excellency in Council far from wishing to weaken the importance of the 1871 settlement concurs with the Durbar in the desire to maintain its authority. The Durbar observe the Mysore maps * * show the boundary in question as a straight line * * His Excellency in Council would observe, however, that this map does not appear to have been accepted by the two Commissioners * * *." This clearly shows that the sketch of the disputed area with the settled boundary marked in red ink and signed by both the Commissioners which illustrated the decision in words was not before the Madras Government when its decision was passed.

(2) I have already sent a true copy of this sketch with my unofficial note of the 2nd October 1907; and I have now got another copy of the same prepared and submitted for ready reference.

(3) A glance at the sketch shows the settled boundary is a straight line, whereas the line as demarcated by the Madras Survey Department contains bends contrary to the decision and the sketch attached thereto of the Joint Commissioners.

(4) I have every reason to believe that the decision of the Madras Government with the map before them would have been otherwise than what it is, as they admit the authority and integrity of the settlement of 1871. The claim now therefore rests entirely on this map.

(5) Under these circumstances, an inspection of the locality will not throw further light on the dispute."

13. Letter Pol. No. 933, dated 18th May 1908, to the First Assistant to the Hon'ble the Resident in Mysore:—

"(1) With reference to your letter No. 5854, dated 13th September 1907, on the subject of the disputed boundary between the Nagasamudra village in the Chitaldrug District, and the Macheri village in the Bellary District, stating that the Madras Government are unable to accede to the request of the Durbar to rectify the boundary demarcated by the Madras Survey Department in 1887 according to the Mysore Survey Map, as they are not satisfied that the boundary so demarcated is incorrect, I am directed to observe as follows:—

(2) Much of the controversy in the case has been due to the fact that Mr. Srivatsanka Rao, Deputy Collector, who was deputed as the British representative, to settle the boundary jointly with a representative of the Durbar in 1900, was not aware of the settlement effected in 1871 by Mr. Weld and Mr. Barker, and when informed of it by the representative of the Durbar, he did not realise and was not prepared to admit the authority and finality that should have been attached to it and that he sought to justify the boundary demarcated by the Madras Survey Department in 1887 by references to old accounts and by other arguments which had lost all their force after the boundary had once been authoritatively settled and recorded. The case is now considerably simplified and the points at issue narrowed down to whether the boundary settled in 1871 has been correctly indicated in the Mysore Survey Map, as His Excellency the Governor-in-Council admits that the correct boundary is to be determined according to the settlement effected in 1871 by Mr. Weld and Mr. Barker and that the authority of that settlement should be maintained. On reference to the joint report of Mr. Weld and Mr. Barker, His Excellency the Governor-in-Council, however, concludes that the boundary does not run in a straight line as is shown in the Mysore Survey Map. In arriving at this conclusion, however, the attention of His Excellency the Governor-in-Council does not seem to have been drawn to the sketch which accompanies the joint report of 1871 and which illustrates the course of the boundary as settled. This sketch is signed by both the Commissioners and a copy of it is enclosed herewith for ready reference. It will be seen therefrom that the boundary shown in the Mysore Map tallies with that given in the sketch and that its alignment is straight and does not contain bends as the boundary demarcated by the Madras Survey Department does. The descriptive memorandum contained in the report is somewhat vague but as the boundary is shown clearly in the sketch, the Durbar consider that there can be no doubt as to the boundary originally settled by the Commissioners in 1871.

(3) Under these circumstances, the Durbar request that the boundary may be rectified as marked in the sketch so as to make it accord with the settlement of 1871."

14. Correspondence ending with letter Pol. No. 42, dated the 11th July 1908 and Pol. No. 572, dated the 21st January 1909, to the First Assistant to the Hon'ble the Resident in Mysore, forwarding the original of the sketch showing the boundary as settled by Mr. Weld and Mr. Barker in 1871 and also the survey map of the Nagasamudra village.

---

15. Letter No. 5518, dated the 14th September 1910, from the First Assistant to the Hon'ble the Resident in Mysore:—

"(1) In continuation of this office letter No. 5200, dated the 6th August 1909, regarding the boundary dispute between Nagasamudram and Mecheri villages, I am directed to state that, after careful consideration of the Durbar's letter No. 933—Pol., dated the 18th May 1908, and of the sketch signed by Messrs. Barker and Weld, the Commissioners of 1871, the Government of Madras have resolved to accept the Durbar's proposal that the boundary shall be rectified as marked in the sketch.

(2) The dispute originally related to the boundary line running along the top of the Karrakatave Hills, but it is now reported that both the British and Mysore demarcations differ from the Commissioners' sketch at other points further along the boundary as far as

the Nemalibanda Rocks. In view of the importance which the Durbar attach to the Commissioners' sketch, His Excellency the Governor-in-Council has decided to accept the boundary shown in the sketch throughout and orders have been issued directing that the entire boundary from the trijunction of the villages of Nagasamudram, Siddapur and Mecheri down to Nemalibanda Rocks should be rectified in strict accordance with the sketch. I am to express the hope that the action taken by the Madras Government will be acceptable to the Durbar.

(3) In order to avoid further disputes, the Government of Madras suggest that representatives of the two Governments should be appointed to carry out the alterations in the demarcation which are required in order to bring it into accordance with the line shown in the Commissioners' sketch. The Land Records Tahsildar of Bellary will represent the Madras Government, and I am to request that a representative may be nominated by the Durbar. The time and place of meeting of the two representatives may be settled by the Deputy Commissioner concerned in direct correspondence with the Collector of Bellary.

(4) The original sketch signed by Messrs. Barker and Weld forwarded with Mr. Chandrasekhara Iyer's letter No. 42 Pol., dated the 11th July 1908, is returned herewith."

No. R. 3477-79—L. S. 152-98-52, DATED BANGALORE, 24TH NOVEMBER 1910.

ORDER THEREON.—Government accept the decision arrived at by the Government of Madras, communicated in the last letter read above.

2. As it is reported that the Mysore demarcations also differ from the Commissioners' sketch (printed as enclosure to serial No. 12 of the correspondence read above) at certain points along the boundary in other places besides those relating to the dispute in question, Government direct that the entire boundary from the trijunction of the villages of Nagasamudram, Siddapur and Mecheri down to the Nemalibanda Rocks be rectified in strict accordance with the sketch referred to above and clearly demarcated so as to avoid any further doubt regarding the same.

3. The Superintendent of Survey is requested to depute an officer of the Survey Department to arrange for the rectification of the boundary as above in conjunction with the Land Records Tahsildar of Bellary. The time and place of meeting of both the representatives will be arranged for by the Deputy Commissioner, Chitaldrug District, in direct correspondence with the Collector of Bellary.

4. The demarcation should be carried out at an early date and a joint report to that effect accompanied by a sketch of the locality signed by both the representatives should be submitted to Government in due course.

READ—

Letter No. 4638, dated the 29th October 1910, from the Revenue Commissioner in Mysore, forwarding the statement of cattle mortality for the year 1909-10, together with a copy of his review thereon.

Revenue Commissioner's Review No. 4629—37, dated 29th October 1910.

Statements showing the losses in cattle of various kinds, received from the Deputy Commissioners of Districts for the year 1909-10.

Recorded.

2. The accompanying consolidated statement shows the extent of cattle mortality in the State during the year 1909-10, as compared with the previous year. It will be seen, therefrom, that the total mortality during the year under review was 84,191, which, it is gratifying to observe, is less than half the mortality during the previous year, *viz.*, 187,276. For such a low rate of cattle mortality among cattle we have to go back to the year 1893-94 when the total loss of cattle numbered 61,588. In the intervening period between 1893-94 and 1909-10 the annual average cattle mortality may be reckoned at 134,000 in round numbers.

3. What is more gratifying to note is that the number of animals which died of sickness was less than a third of that of the previous year, being 36,366 against 109,405. The fact that the weaker specimens must have succumbed to the drought of 1908-09 and the epidemics which prevailed then may partially account for the smaller mortality. Still, the large decrease must be set down to the favourable seasonal conditions of the year under review and, to a certain extent, energetic efforts of the Civil Veterinary Department in combating cattle diseases and in disseminating useful scientific information among the raiyats regarding segregation and treatment of patients.

The following letter No. 3214, dated the 12th September 1910, and enclosures thereto from the Revenue Commissioner in Mysore:—

"I have the honor to submit herewith for the information of Government copy of letter No. 83, dated 13th ultimo, from the Deputy Commissioner, Chitaldrug District, soliciting instructions in the matter of recovering interest from persons offering to discharge the loans taken by them under the revised Takavi Rules in one lump sum (instead of by instalments) and also a copy of my docket No. 3213, dated 8th instant, sent in reply to the same."

(Enclosures to the above.)

(1)

Letter No. 83, dated 13th August 1910, from the Deputy Commissioner, Chitaldrug District, to the Revenue Commissioner in Mysore:—

"I have the honor to state that some persons who took loans under the revised Takavi rules have now come forward to liquidate the debt once for all instead of by instalments, and desire that only the interest accruing on the principal amount of loan from the date of disbursement of the loan till repayment may be recovered from them. Para 5 of Rule No. 5 when read with the English form of Loan Order printed in the handbook of revised Takavi rules seems to allow the reduction of interest as it lays down that the excess of the instalments paid by a party shall be credited in reduction of principal and the number of future payments shall, if necessary, be decreased. I however solicit clear instructions as to whether in such cases only the interest on the principal from the date of disbursement of loan up to the date of repayment of the loan in one lump sum may be recovered."

(2)

Docket No. 3213, dated the 8th September 1910, from the Revenue Commissioner in Mysore to the Deputy Commissioner, Chitaldrug District:—

"His letter No. 83, dated 13th August 1910, stating that in some cases persons who have taken loans under the revised Takavi rules have offered to discharge the loans once for all and enquiring whether in such cases it would not be sufficient to recover in one lump sum the interest on the principal from the date of disbursement of the loan up to the date of repayment.

In reply to the above has the honor to state that the Deputy Commissioner's view is correct as it is in accordance with para 5 of (Revised) Rule 5. It is but just that the debtor should be let off if he pays the *present value* of the annuities due at the rate of interest charged on the loan.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ AGAIN—

Government Order No. Fl. 1150-1192—18-1901-2, dated 7th February 1903, regarding the reduction of the status of the State Huzur Treasury and the formation of a Local Audit Department as a Branch of the Comptroller's Office.

2. Letter No. 3539, dated the 18th December 1906, from the Comptroller to the Government of His Highness the Maharaja of Mysore, suggesting that the abolition of the State Huzur Treasury would be a mistake, but that the duties of the State Huzur Treasury may be entrusted to one of the Assistant Comptrollers and the cost of establishment reduced.

3. Correspondence ending with letter No. 7357—R. 408, dated 12th June 1909, from the Comptroller to the Government of His Highness the Maharaja of Mysore, suggesting that some portion of the work of the State Huzur Treasury should be transferred to the Comptroller's Office and some portion with the requisite establishment to the Bangalore District Treasury, and the rest of the work done by the State Huzur Treasury as a part of the Comptroller's Office, under the charge of an Assistant Comptroller who will also be in charge of the Local Audit Department to be formed by effecting certain reductions in the establishment of the State Huzur Treasury and the Local Fund Branch of his office.

4. Note by the Retrenchment Committee, dated 7th January 1910, on the above proposals of the Comptroller.

No. FL. 2324-9—G. F. 213-08, DATED BANGALORE, 10TH NOVEMBER 1910.

ORDER THEREON.—The proposals in regard to the revision of the work of the State Huzur Treasury and the formation of a Local Audit Department are sanctioned.

2. Government consider it desirable to allow the Huzur Treasury Officer to remain for the present but under the designation of "Assistant Comptroller in charge of the State Huzur Treasury." He should be given some other work of the Comptroller's Office to keep him fully engaged and he should be subordinate to the Comptroller in the same way as other Assistant Comptrollers. The work relating to the Stamp Superintendent's Office as well as that of the Khazana Bakshi will also be discharged until further orders by the Assistant Comptroller in charge of the Huzur Treasury.

3. The Comptroller is requested to transfer such portions of the Huzur Treasury work to the Comptroller's Office and to the Bangalore District Treasury as may be necessary to prevent duplication of work. Government consider it desirable that ultimately all receipts and payments on behalf of Government at Bangalore should take place at the District Treasury, the Huzur Treasury becoming, what it should be, a Reserve Treasury to meet the requirements of all other Treasuries in the State as regards distribution of Cash, Stamps, Opium, etc.

4. After this readjustment of work is completed, the Comptroller is requested to report whether the Assistant Comptroller for the Huzur Treasury is required to be continued, and the question whether the Comptroller should have six or seven Assistants for all work including the Huzur Treasury will then be finally decided.

5. The Comptroller is requested to organise without delay the Local Audit Department at a cost not exceeding Rs. 649 per mensem, as per statement noted below:—

			Average Rs.
1	Chief Auditor or Superintendent	(100-10-150)	137½
2	Auditors	(70-5-100)	184

1	Correspondence Clerk	(25)	25
5	Peons	(1 on 8 and 4 on 7)	36
		Total	648

Financial (General Finance), dated 10th November 1910.

6. The Comptroller in the last of his letters read above proposes certain reductions in the staff of his Local Fund Branch and the State Huzur Treasury as per margin. These reductions should be gradually given effect to as the work of organising the Local Audit Department and reorganising the State Huzur Treasury proceed and reports submitted to Government from time to time.

Correspondence ending with letter No. 548—S, dated 14th June 1910, from the Deputy Commissioner, Hassan District, reporting on the petition of one Anantaramaiya of Hole-Narsipur, claiming under Section 45 of the Mysore Stamp Regulation, the refund of the deficit duty and penalty of Rs. 5-8-0 levied from him in respect of a power of attorney executed by him in connection with the registration of a sale deed in favor of one Subba Rao, contractor, Arkalgud.

No. Fl. 2633-42—S. R. 184-09-4, dated Bangalore, 22nd November 1910.

Order thereon.—Anantaramaiya executed a power of attorney authorising Sivaramaiya to present for registration and admit the execution of a sale deed and also to cause the transfer of the khate of the lands therein conveyed to the name of the purchaser Subba Rao. The power having been executed on a stamp paper of annas eight, the Sub-Registrar of Arkalgud impounded it on the ground of insufficiency of stamp, as the addition of authority in regard to the transfer of khate made clause (*a*) of Article 46 of Schedule I of the Stamp Regulation inapplicable, the proper clause to be applied being clause (*f*) which prescribes a stamp duty of Re. 1. The Deputy Commissioner, Hassan District, thereupon ordered the recovery from the petitioner of the deficit stamp duty of annas eight together with a penalty of Rs. 5, and these amounts were accordingly levied from him.

2. The petitioner contends that the power given by him to effect transfer of khate is a part of the operation of registration and therefore incidental to it and that the provision applicable to the case is clause (*a*) of the Article referred to above. For this purpose he relies on Notification No. 138, dated 17th June 1887, in which Government have ruled that it shall be incumbent on every registering officer to question the parties, before registering a document conveying immovable property, whether they consent to the transfer of the revenue registry of the land conveyed and if so to cause them to execute before him an application in the prescribed form.

3. Government are of opinion that the procedure laid down in the notification referred to cannot be said to form part of, or incidental to, registration. The fact that it is left optional to the party to make a transfer of khate or not and that another application should be signed by him in case he wants the transfer to be effected shows that this process is not part of registering or incidental to it. As, however, the petitioner in this case does not seem to have intended any evasion of the rules, Government are pleased, as a special case, to direct the refund of the penalty levied, under Section 45, clause (*i*), of the Stamp Regulation.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Banking), dated 5th November 1910.

READ—

Letter No. 120—A. B. 17, dated 30th July 1910, from the Inspector of Agricultural Banks, submitting for orders letter No. 453, dated 25th June 1910, from the Deputy Commissioner, Mysore District, recommending sanction to an advance of Rs. 100 to execute certain civil court decrees obtained by the Satnur Agricultural Bank in the Mandya Taluk against some of its members.

No. Fl. 2219-27—B. 13-10-2, DATED BANGALORE, 5TH NOVEMBER 1910.

ORDER THEREON.—As a creditor of the Bank the Government has no right to execute the decrees obtained by the Bank against its debtors. In the circumstances the best course for Government to adopt is to proceed to recover the amount as a revenue demand under Regulation II of 1903 from every member of the Bank. No advance is under these circumstances necessary.

2. As regards the practice of the taluk authorities taking over possession of the books and other papers of a Bank ordered to be wound up, Government observe that such a course is not legal and leads to complications if the bonds and decrees become time-barred and unenforcible while in the wrongful custody of Government officers.

No. Fl. 2376-416—S. & A. 188-10-3, dated Bangalore, 12th November 1910.

Order.—Several cases of improper grant of leave necessitating the recovery of overpayments from the pensions of retired officers have been brought to the notice of Government by the Comptroller. This shows that officers who are vested with the power of granting leave do not take the trouble of understanding the rules properly or of applying them strictly. The Government of His Highness the Maharaja therefore desire to enjoin particular care in this matter. In cases in which the Comptroller finds that leave allowances irregularly drawn should be recoveredf he will, besides giving the necessary directions as usual, call for the explanation of the officer concerned and submit it to Government.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Subject No. 30 of the Representative Assembly Proceedings of 1907 and the reply of Government thereto, in the matter of the construction of separate buildings for the location of under-trial prisoners and a separate establishment unconnected with the Police to guard them, and the appointment of female guards to watch under-trial prisoners of that sex in all the taluk lock-ups in the State.

2. Subjects Nos. 52 and 63 of the Representative Assembly Proceedings of 1908 and No. 49 of 1909 and the replies of Government thereto on the same subject.

3. Letter No. 1166—F. 62-08, dated the 23rd October 1908, from the Inspector-General of Prisons in Mysore, requesting the issue of a definite ruling in regard to the disciplinary powers to be exercised over the Police constables deputed for lock-up duty.

No. J. 1380-91—PRIS. 30-08-2, DATED BANGALORE, 9TH NOVEMBER 1910.

ORDER THEREON.—The following are the main points urged for the consideration and orders of Government in the several representation read above, *viz*:—

(1) That a separate establishment other than the members of the Police Force be provided for guarding the taluk lock-ups.

(2) That the officers in charge of lock-ups be invested with the power of control over the guarding establishment, particularly in the matter of ordering prosecutions and awarding departmental punishments in cases of gross neglect of duty on the part of the policemen deputed for lock-up work.

(3) That female guards be employed to guard female prisoners in lock-ups or if this is not practicable, that the doors of lock-ups where females are confined, be locked and sealed every night by the officer in charge of the lock-up and opened by him next morning.

(4) That under-trial prisoners be kept apart from convicted prisoners and that separate accommodation be provided for each class of prisoners.

2. These questions have been fully considered by Government in consultation with the Inspector-General of Police and the Inspector-General of Prisons, and Government are pleased to pass the following orders on the several points.

3. In the matter of a separate guarding establishment for taluk lock-ups, Government consider it undesirable to substitute a separate agency for the Police as the former cannot be expected to possess that sense of duty and discipline which is the characteristic of the Police Force. The Police guard may be changed if necessary but a permanent guard of the kind advocated cannot be so changed. Further, in view of the increased expenditure involved in the maintenance of a large fixed establishment, without sufficient work at all times and without the possibility of effecting any corresponding reduction in the Police staff, the proposal must be regarded as impracticable. No change is therefore called for as regards the present system of guarding the lock-ups through the Police agency.

4. With reference to the question of the exercise of disciplinary powers over the policemen deputed for lock-up duty, what is required is not any direct control or authority over the policemen, but that the Inspector-General of Prisons as the officer responsible for the administration of prisons in the State should be kept duly informed of the proceedings instituted and the final action taken in respect of policemen reported against or found fault with when on duty in the lock-ups. Government are accordingly pleased to direct that in every case of a breach of Prisons Rules, the Inspector-General of Police will arrange to furnish the Inspector-General of Prisons with a full report of the proceedings of any enquiry which the Police officers might institute in the matter, in order to enable that officer to move the Inspector-General of Police or the Government to take further action in case he considers that the action taken has not been adequate.

5. Regarding the suggestion made in the Representative Assembly in the matter of sealing the doors of female lock-ups during nights in the presence of the

Judicial and Legislative (Prisons), dated 9th November 1910.

lock-up officer, it is observed that there are practical difficulties in carrying out the suggestion, as for example, it will necessitate the presence of the lock-up officer at inconvenient hours. An alternative suggestion has, however, been made to entrust the task of sealing to a lower but responsible officer, namely, the Police dafadar (who is a stationary officer) in the case of taluk lock-ups and the lock-up dafadar in the district lock-ups. Government are inclined to give this suggestion a trial, but they observe that the Inspector-General of Prisons has issued a circular to all the lock-up officers that whenever there are female convicts or under-trial prisoners at lock-ups not provided with suitable accommodation, a female guard should be employed temporarily, if available. When no such arrangement is feasible, the Inspector-General of Prisons is requested to give effect to the suggestion above referred to, as a tentative measure, for a period of two years and then to submit a report as to the working of both the arrangements.

6. In this connection, it has been brought to notice that in certain taluk lock-ups under-trial prisoners and convicts are being confined in the same cell. The practice is clearly irregular and opposed to Rule 6 of the Lock-up Rules and should be discontinued. The Inspector-General of Prisons is requested to ascertain in what places separate accommodation has to be provided for under-trials and to submit for the approval of Government proposals to effect necessary alterations to the existing lock-ups, with plans and estimates therefor, in consultation with officers of the Public Works Department.

Letter No. 1862—70-09, dated 3rd November 1909, from the Inspector-General of Prisons in Mysore, requesting the orders of Government as to the date of release of a prisoner who was sentenced to two different periods of imprisonment, the second sentence being directed to take effect after the expiry of the first, which has since been set aside in appeal.

2. Letter No. 4670—278, dated 5th May 1910, from the Registrar of the Chief Court of Mysore, expressing the opinion of the Chief Court on the subject.

No. J. 1582-3—PRIS. 39-09, DATED BANGALORE, 25TH NOVEMBER 1910.

ORDER THEREON.—Government are of opinion that in a case like the one under reference, the period of imprisonment undergone by the prisoner till the date of annulment of one sentence on appeal should, as far as possible, be counted against the period of the second sentence, ordered to take effect after the expiry of the first.

2. As no specific rule exists at present in this matter, the Government of His Highness the Maharaja of Mysore are pleased to direct that the following rule be added as Rule 2A after Rule 2 in the set of rules *re* the calculation of the date of release of prisoners, issued under Government Order No. 12994-95—J. 1601, dated 15th May 1899:—

"2A. When a prisoner is undergoing more than one sentence, and the first sentence is annulled on appeal, the second sentence shall take effect from its own date.

(1) *Illustration.*—A prisoner is sentenced on the 1st July to two periods of six months' imprisonment for two offences. On appeal the first sentence is quashed on the 31st August. The prisoner will be entitled to release on the 31st December.

(2) *Illustration.*—A prisoner is sentenced on the 1st July to six months' imprisonment and on the 1st August to another period of six months imprisonment On appeal the first sentence is quashed on the 31st August. The prisoner will be entitled to release on the 31st January."

3. A notification publishing the above rule will be issued separately.

Government Proceedings No. J. 3263—Regis. 35-07-18, dated the 28th April 1910, approving of the lists of records proposed to be preserved permanently in the office of the Inspector-General of Registration in Mysore and fixing a period of three years for certain other records of his office and requesting him to submit a draft order for the final approval of Government.

2. Correspondence ending with letter No. 162, dated the 28th July 1910, from the Inspector-General of Registration in Mysore forwarding the following revised rules for the preservation and destruction of the old records of his office in accordance with the instructions conveyed in the Government Order read above.

Rules regarding the destruction of records in the office of the Inspector-General of Registration in Mysore.

All records will be divided into two classes:—(1) Permanent and (2) Temporary. The records falling under each class are shown in the two lists annexed to these rules.

2. Records mentioned in list No. 2 may be destroyed after a period of three years from the time to which they relate.

3. The Record-keeper will keep the lists annexed to these rules corrected with reference to changes made therein from time to time.

Drafting clerks and assistants should mark on each paper disposed of by them, before it is sent to the Record-keeper, whether it should be permanently retained or destroyed nothing in the latter case, the year of destruction. These entries should be checked by the Manager or, in his absence, by the Head Clerk.

4. Not later than the 31st April of each year, the Record-keeper will prepare a list of records to be destroyed at the end of that official year and submit it for the Inspector-General's sanction. On receipt of sanction, the records should be destroyed by the Record-keeper in July of the next official year under the supervision of the Manager and a note should be entered in the list under the signature of the Manager that the records sanctioned to be destroyed have been duly destroyed on such and such dates.

READ—

Correspondence ending with letter No. 81, dated 21st October 1910, from the President of the District Board of Bangalore, submitting the statement of works remaining incomplete on the last day of June 1910.

No. 4247-8—L. B. 122-10-5, DATED BANGALORE, 19TH NOVEMBER 1910.

ORDER THEREON.—In Government Order No. 4917-8—L. B. 129-09-6, dated 8th December 1909, sanctioning the completion of works that remained incomplete at the end of 1908-09, the explanation of the officers responsible for not paying proper attention to the completion of works begun was called for and certain discrepancies observed were required to be explained. No report has been received from the President in response to this in spite of several reminders issued in the matter. A few of the discrepancies have been rectified in the statements now received. The number of incomplete works at the end of 1909-10 also is very large, being 175 against 168 at the end of the previous year, and as many as 142 of the latter old works are still incomplete. The facts disclose that the completion of incomplete works did not receive the attention due at the hands of the officers responsible therefor. Their explanation for the remissness may now at least be obtained and submitted for the orders of Government.

2. The President is again requested to be so good as to make effective arrangements for the completion during the current year, of all the incomplete works referred to in the statements, the cost amounting to Rs. 17,000 and odd being met from the provisions made under "B. P. W." in the current year's District Fund budget for incomplete works and new works and by re-appropriation, as far as possible, of sanctioned grants under other heads.

3. The following discrepancies, etc., require explanation :—

(*a*) *Dodballapur Taluk.*—Sinking a well at Bidikere.

In the list of incomplete works for 1908-09, the expenditure incurred is shown as Rs. 116 while in the list now received it is entered as Rs. 63-6-0.

(*b*) *Dodballapur Taluk.*—Revised estimate for sinking a well at Inahalli. The amount of estimate being over Rs. 500, the list of sanctions for October 1909 quoted as authority for sanctioning the work is not correct.

(*c*) In the list now received, the authority for sanctioning the marginally-noted works, is shown as the statement of sanctions for August 1909, while the President in his letter No. 59, dated 29th September 1909, reported that no works were sanctioned by the District Board during August 1909.

(1) Repairing roads at Harohalli in the Kankanhalli Taluk.
(2) Sinking a well at Averagere in the Closepet Sub-Taluk.

(*d*) Sinking a well at Kavalhosahalli in the Anekal Taluk. In the remarks column of the list it is stated that this work will be abandoned after making payment of Rs. 89-15-0. The circumstances under which the work is proposed to be deferred after incurring an expenditure of Rs. 89-15-0 should be reported with complete records of the case.

(*e*) There is difference in the amount of estimate of the works noted below:—

Taluk	Village	Name of work	Amount of estimate according to the list of incomplete works for —	
			1908-09	1909-10
(1) Dodballapur	Kasavanhalli	Sinking a well ...	Rs. 255 according to the Government Order, sanctioning the execution of the non-budgetted work.	218 0 0
(2) Nelamangala	Ravutanhalli	Deepening the well ...	Rs. 256 according to the list of incomplete works.	209 9 6
(3) Closepet Sub-Taluk	Kutkalhalli	Constructing a musafir-khana.	332	465 0 0
(4) Channapatna	Ambaladoddi	Sinking a well ...	200	210 0 0
(5) Devanhalli	.....	Repairing Budugere road.	350	200 0 0

4. The return due in this office on the 31st of August 1910 has been submitted several days after the due date. The President is requested to be so good as to arrange for the correct preparation and punctual submission of the return in future.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Correspondence ending with letter No. 53, dated the 18th October 1909, from the President of the Mysore City Municipal Council in the matter of the maintenance charges of the Vanivilas Water Works in the City and the extent of the Municipality's liability thereto.

No. 4623-5—Ml. 421-07-31, DATED BANGALORE, 30TH NOVEMBER 1910.

ORDER THEREON.—The subject has been fully considered by a Committee appointed by the Municipal Council and the Officiating Chief Engineer deputed by the Government, and six resolutions and an opinion have been recorded by them. The resolutions and the opinion are reproduced below :—

Resolutions.

"(1) That the Public Works Department do supply water to all the existing latrines built on the ensured flush system the construction of more latrines on the said system being deferred till the Municipality is assured of the necessary water-supply by the Public Works Department.

"(2) That, in houses with meter connections, if a leakage reported in writing in the office of the Superintendent of Water Works in Mysore, is not stopped or repaired within 24 hours, the excess water in that month over the previous month's average be not charged for.

"(3) That no public fountain be removed or new fountain opened without consulting the Municipal Council.

"(4) That within two weeks of the receipt of an application for a private house connection or extension of house connection, the applicant be informed of the amount of estimate and within two weeks of the deposit of the estimated amount, the connection or extension be completed.

"(5) That in petty repairs, the Superintendent of Water Works be authorised to accept along with the application a deposit of Rs. 10.

"(6) That the Municipality do assess a tax of 3 per cent on the annual rental value of the houses in the City, that the amount realised under the above head be made over to the Public Works Department as also the collections of excess water charges on bills to be submitted by the Water Works Department and that all the construction and maintenance charges including royalty for electric power supplied and all other charges of every description be met by Government."

Opinion.

"The Conference records it as its opinion that in view of the facts that the Vanivilas Water Works were a free gift, that the Municipality has a minus balance and that if from the beginning the Municipality had been debited with only a 3 per cent tax, the position of the Municipality would now have been immensely better, the question of relieving the Municipality of the extra charges already put on it deserves the very favourable consideration of Government."

2. The first five resolutions are all connected with the details of administration of water-supply and are sanctioned. The Chief Engineer is requested to give effect to them forthwith.

3. The sixth resolution deals with the division of the cost of the water-supply between the Municipality and the Government. In their Order No. 6057-9—Ml. 176-09-4, dated the 20th January 1910, the Government have sanctioned the levy of a general water rate at 3 per cent on the rental value of all buildings and premises in the Mysore City Municipality with effect from the 1st April 1910. They are now pleased to direct that with effect from the current official year (1910-11) the Mysore City Municipality do pay to the State Public Works Department the amount realised as the water rate as also the collections of excess water charges on house connections on bills to be submitted by the Public Works Department and that the entire maintenance and repair charges of the Vanivilas Water Works be met by Government, the amount not covered by the realisations from the water rate and the excess water charges as aforesaid being treated as a grant-in-aid to the Municipality and shown in the accounts as such.

Local Fund and Sanitary (Municipal), dated 30th November 1910.

4. In view of the opinion recorded at the Conference of the aforesaid Committee and the Chief Engineer, Government direct that the expenditure of Rs. 50,000 incurred on the electrification of the Belagola pumps be debited to State Funds and that the loan of this amount granted to the Municipality in Government Order No. Fl. 3365-8—Ml. 421-07-03, dated the 3rd February 1909, be written off the accounts. They are of opinion that the other charges amounting to Rs. 77,751 (according to a statement furnished by the Municipal President with his letter No. 53, dated 18th October 1909) must be borne by the Municipality as they were incurred for the maintenance of an adequate water-supply to the City.

The Report on the working of the Hospitals and Dispensaries in Mysore for the calendar year 1909, received with the Senior Surgeon's letter No. G. 331, dated the 3rd June 1910.

No. 3639-48—MED. 210-09-14, DATED BANGALORE, 2ND NOVEMBER 1910.

ORDER THEREON.—Recorded.

2. The Branch Dispensary at Basavanhalli having been abolished during the year, the total number of medical institutions open on the 31st December 1909 was 148 against 149 at the end of the year 1908. The total number of patients treated in the State Public Institutions (except the special hospitals) and the Local Fund and Private Aided Dispensaries was 1,182,448 against 1,139,447 in 1908. Of this number, *viz.*, 1,182,448, 11,153 were in-door and 1,171,295 were out-door patients as against 10,648 and 1,128,799, respectively, in the previous year. Classified according to age and sex, 546,357 were men, 248,080 were women and 388,011 were children as against 535,505 men, 232,458 women and 371,484 children in the year previous. Of the 11,153 in-door patients treated, 7,602 were cured, 1,833 relieved and 739 discharged otherwise, 849 died and 130 remained under treatment at the close of the year.

3. The number of cases treated for small-pox was 384 against 140 in 1908, while that for cholera was 598 against 789 in 1908. The decrease in the number of cases treated for malarial fevers observed during 1908 continued, the number treated during the year being 190,743 against 191,087 in 1908. The number of cases treated for tubercular diseases was 923.

4. Including the 94 patients that remained at the end of the previous year, 33,725 patients underwent surgical operations in the several State Public, Local Fund and Private Aided Hospitals and Dispensaries. Of these, 25,357 were cured, 7,352 relieved and 859 discharged otherwise, 84 died and 73 remained under treatment at the end of the year. The number of operations performed altogether on the 33,631 patients was 33,697 (including 66 secondary operations) of which 1,950 were major operations. The number of major operations performed in the Victoria Hospital, Bangalore, was 770 against 861 in the previous year.

5. One hundred and six midwives were at work during the year against 104 in 1908, and 6,504 cases were attended to by them against 5,787 cases in 1908. In para 35 of the report the Senior Surgeon suggests the employment of midwives in every village where 50 or more births take place annually.

6. The total expenditure during the year on account of the State Public, Local Fund and Private Aided Hospitals and Dispensaries in the State amounted to Rs. 4,14,793 against Rs. 4,05,562 in the previous year.

7. The total number of patients treated in the State non-Public, *i.e.*, (*a*) Jail, (*b*) Sowar, (*c*) Public Works Department Hospitals and Dispensaries and the Railway Dispensaries, was 67,653 against 64,857 and the operations performed therein numbered 2,606 against 1,664 in the preceding year.

8. The number of Hindu Vaidyasalas and Unani Dispensaries increased from 26 in 1908 to 30 during the year under review. The total number of patients treated in them was returned as 235,566 against 213,234 in the previous year. Of the total number treated 212,596 were shown as cured and 18,719 were relieved or discharged otherwise, 224 died and 4,027 remained under treatment at the end of the year.

9. During the year under review, special pay wards were tentatively opened in the Victoria Hospital, Bangalore, the rates of admission thereto being generally those in force in the General Hospital, Madras. During the six months from July to December 1909 when the wards were open, 18 persons were treated in them, of whom 15 were gentlemen, 2 ladies and 1 child, 8 of them were Europeans and 10 Indians. The charges recovered from the patients during this period amounted to Rs. 675 and the expenditure incurred on the establishment to Rs. 234.

Local Fund and Sanitary (Medical), dated 2nd November 1910.

10. The term of service of Lt.-Col J. Smyth, M.D., I.M.S., Senior Surgeon a Sanitary Commissioner under the Durbar, having expired in March 1909, an exte sion of his services was applied for and it was sanctioned by the Government India.

The Report on Sanitation in Mysore for the calendar year 1909, received with letter No. 869, dated the 18th August 1910, from the Sanitary Commissioner in Mysore.

No. 3736-44—SAN. 43-10-4, DATED BANGALORE, 4TH NOVEMBER 1910.

ORDER THEREON.— The registered birth rate in the State fell from 19·24 per thousand in the previous year to 18·36 in 1909, which is, however, 1·76 more than the average for the previous five years. For every 100 females born there were 104·79 males as against 103·8 in the previous year. There was a slight increase in the number of deaths, the death rate per thousand being 17·52 as against 16·57 in the previous year and the proportion of male to female deaths was 109·50 to 100 against 108·5 to 100 in 1908.

2. In the Districts of Bangalore, Mysore and Kadur, the death rate shows an excess over the birth rate. This, the Sanitary Commissioner reports, is attributable in the cases of the Mysore and Kadur Districts to the low birth rates recorded. The highest death rate in the State was returned by the Bangalore District owing to the prevalence of cholera and small-pox.

3. The largest proportion of deaths was, as usual, among infants under one year of age, and old people of 60 years and upwards. The mortality among the former was 94·09 per thousand, as against 96·04 in 1908, or nearly one out of every eleven children born. As already directed in reviewing the report for 1908, the Sanitary Department should investigate the cause of this high mortality and suggest suitable measures for reducing the same. The female mortality was lower than the male mortality at all ages except between 15 and 30, the difference being most marked between the ages of 15 and 20.

4. The number of deaths from cholera in the year under review was 1,629 as against 2,447 in 1908 and 4,972 in 1907. This steady decline in the number of cholera cases is satisfactory. It is also noted that prompt measures were taken to prevent the spread of the disease. A chart made out from available statistics showing the time of the year at which the disease generally breaks out in each district would perhaps be of use for keeping a timely watch and taking the necessary precautionary measures for preventing the outbreak and spread of the epidemic. The delay in reporting the occurrence of the first case of cholera in the Kengeri cooly camp is reported to have led to the spread of the disease in the Bangalore District. It is of the utmost importance that information of the first suspected cases or signs of an epidemic should be given with the least possible delay to the Local Medical and Sanitary Officers to enable them to take immediate preventive measures, and the attention of all officers concerned is invited to Government Proceedings No. 1389-98—San. 199-09-4, dated the 10th August 1910.

5. From small-pox, 6,189 deaths occurred as against 1,890 in 1908. The largest number of deaths was registered in the Bangalore District and the mortality was greater than in the previous year in all the districts except Shimoga and Chitaldrug.

6. The number of deaths from fevers was 38,922 or 7·14 per thousand against 38,338 or 7·03 per thousand in 1908. As usual, the highest mortality from fever was recorded in the Kadur, Shimoga and Hassan Districts. The investigation of the causes which retard the growth of population in the malnad districts, which has been ordered by Government, should be expedited.

7. There was a considerable decrease in the mortality from plague as compared with the previous year, the recorded deaths being 4,048 against 7,154 in 1908. The district most affected was Mysore including the Mysore City. During the year under review, 49,306 persons were inoculated with Haffkine prophylatic as against 9,179 in 1908.

8. The aggregate cost of sanitary works executed during the year by the Public Works Department and the various Municipal bodies amounted to Rs. 5,64,608. The Central Sanitary Board examined seven schemes during the year estimated to cost Rs. 1,41,231.

Local Fund and Sanitary (Sanitary), dated 4th November 1910.

9. Four out of five Deputy Inspectors of Vaccination, who had been deputed for training in the Sanitary Inspectors' Class at Madras were appointed as District Sanitary Assistants during the year. As there was some difficulty in procuring men for appointment as Sanitary and Assistant Sanitary Inspectors, a batch of ten students was sent to Madras with scholarships to qualify themselves as Sanitary Inspectors.

10. As in the previous year, a health exhibition was organised and held during the Dasara in order to awaken public interest in matters of sanitation.

11. A fair amount of inspection work was done by the inspecting officers.

Dasara Representative Assembly Subject No. 281 of 1909:—

Summary of discussion:—

(*a*) The rules framed by Government, prescribing qualifications for voters and members of the Representative Assembly may be extended to the raiyats in inam villages.

(*b*) They may also be allowed to become members of Taluk Boards.

Reply of Government:—

Noted for consideration

2. Letter No. 251, dated the 6th July 1910, from the Revenue Commissioner in Mysore, stating that, in his opinion, the suggestions of the Representative Member may be adopted.

No. G. 2765-74—G. R. 16-09-3, DATED BANGALORE, 9TH NOVEMBER 1910.

ORDER THEREON.—Under the existing rules all persons who pay "Government land revenue or mohatarfa tax" of not less than certain specified amounts are qualified to elect, or to be elected as members of the Representative Assembly; but there is no provision conferring a similar privilege on raiyats and merchants in inam villages who pay land revenue or mohatarfa tax to the Inamdar and not to Government.

2. The Government of His Highness the Maharaja observe that the Representative Assembly is not intended to be exclusively representative of raiyats and merchants in Government villages, and that its functions are not confined to voicing the needs of this class of His Highness' subjects; and the Government are disposed to agree that raiyats and merchants in inam villages should, as far as possible, be given the same privileges in respect of elections to the Representative Assembly as persons of similar status in Government villages. There are, however, practical inconveniences in extending the privilege to raiyats in the Yelandur and Sringeri Jahgirs or to those holding lands in inam villages into which survey and settlement have not been introduced; but in inam villages into which survey and settlement have been introduced, and in which the assessment on lands in the holding of the raiyats can be definitely ascertained from the settlement accounts, payment of land revenue or mohatarfa tax to the inamdar may well be treated as qualifying to vote or to be voted for in the same manner as payment of the same amount of land revenue or mohatarfa tax to Government in the Government villages of the same taluk.

3. This will necessitate the following amendments in the rules regarding the constitution and conduct of business of the Dasara Representative Assembly as revised by Notification No. G. 1803—G. R. 4-07-4, dated the 6th September 1907:—

(1) For the existing clause (*a*) of Rule 1, read—"Every person who pays on his own account annually land revenue or mohatarfa tax (house and shop taxes) of not less than the amount specified in the accompanying Schedule A for each taluk, either to the Government or to the holder of an alienated village to which the provisions of Chapters VIII to X of the Land Revenue Code have been applied, or in the case of mohatarfa tax, to a Municipal Council."

(2) For the existing Clause (*a*) of Rule 3, read—"A person who pays on his own account annually land revenue or mohatarfa tax (house and shop taxes) of not less than the amount specified in the accompanying Schedule B for each taluk, either to the Government or to the holder of an alienated village to which the provisions of Chapters VIII to X of the Land Revenue Code have been applied, or in the case of mohatarfa tax, to a Municipal Council."

4. The draft of the proposed amendments as above will be duly published in the *Mysore Gazette* for general information and will be finally taken into consideration after the 31st March 1911, before which date any representations from members of the Representative Assembly, and other gentlemen, and from public bodies should be sent to the Secretary to Government, General and Revenue Departments.

General (Reports), dated 9th November 1910.

5. As regards raiyats in inam villages being allowed to become members of the Taluk Boards, it is observed that Rule 11 of the Rules under the Local Boards Regulation published with Notification No. 30—Legis. 4-03, dated the 9th September 1903, does not prohibit such raiyats standing for election if they possess the requisite qualifications.

Report on the working of the Bangalore Central Press, the *Mysore Gazette* Office, the Branch Press at Mysore and the Office of the Registrar of Authorized Publications in Mysore for the year 1909-10, received with letter No. 178, dated 9th August 1910, from the Superintendent of the Government Press.

No. G. 3011—G. P. 11-10-3, DATED BANGALORE, 16TH NOVEMBER 1910.

ORDER THEREON.—During the year under report, the entire establishment of the Government Press was re-organized. A number of temporary posts were abolished and the establishment now consists of, firstly, men on the permanent scale on fixed pay, and secondly, men paid on the piecework system. The scale, as revised, consists of 124 permanent men and costs Rs. 2,160 a month. The establishment has thus been placed on a satisfactory basis.

2. There was a large increase in the quantity of binding work during the year, due to the increased requirements of the Education Department, and the printing in volume form of the special reports of the Senior Surgeon, the State Geologist and the Inspector-General of Education on the results of their deputations to Japan, Italy and Europe and America, respectively.

3. The Branch Press at Mysore did good work especially under the stress of the visit of His Excellency the Viceroy and of His Highness the Yuvaraja's wedding, besides the usual Dasara and Exhibition work. The proposal to fit up an electrical motor at this Press is under the consideration of Government.

4. Government desire to place on record their high appreciation of the splendid work done by Mr. Yates and of the unflagging zeal displayed by him and his assistants and subordinates in the business of the Press during the year.

Correspondence ending with letter No. 4338-303, dated the 27th October 1909, from the Inspector-General of Education in Mysore, forwarding a list of old and unsaleable publications stocked at the Government Central Book Depôt and requesting that as some of the books mentioned in the list are useful to schoolboys, the list may be got printed and copies thereof furnished to the Curator for distribution among schools, colleges and booksellers, and recommending that discounts varying from 25 to 75 per cent may be allowed to purchasers according to the nature of the books purchased.

(2) Correspondence ending with letter No. 890-61, dated the 23rd July 1910, from the same officer reporting that no applications have been received for any of the books referred to above at a discount of less than 50 per cent, and submitting for orders a list of applications received in respect of 298 publications, and recommending that, as additional accommodation is greatly needed for the Book Depôt, books likely to be of use in Government Schools may be sent to such institutions free of cost and the remaining publications such as administration reports, etc., which are quite unsalable, sent to the Government Press for use as waste paper, etc.

No. G. 2793-839—G. M. 174-07-20, DATED BANGALORE, 10TH NOVEMBER 1910.

ORDER THEREON.—In the circumstances represented by the Inspector-General of Education, Government are pleased to order as follows:—

(*a*) Educational and other books which are of any use in Government institutions may be sent to such institutions free of cost.

(*b*) In regard to the 298 publications in respect of which applications have been received, the Inspector-General is authorised to arrange for the disposal of the publications at the prices offered in the case of Nos. 2, 3 and 6 in the list submitted by him, a discount up to 75 per cent being granted consistently with the sale price fixed in respect of the other publications referred to in the list.

(*c*) As regards the copies of administration reports, etc., which are unsalable, the Superintendent of the Government Press, who was consulted in the matter, states that there is no accommodation for stocking them in the Press and that nothing will be gained by removing the same from the Book Depôt to the Government Press. The Curator may therefore be instructed to consult the Heads of Departments and other officers concerned as to whether any copies of the publications in question are required by them for reference in their offices and if any publications may remain after such supply to the said offices (free of cost) the Inspector-General may, in consultation with the Superintendent, Government Press, arrange for their disposal as waste paper under Government Proceedings No. G. 6059-106—G. P. 18-09-5, dated 19th May 1910.

2. A report on the results of the above arrangement should be submitted to Government in due course.

No. G. 2939-47—G. M. 99-10-2, DATED BANGALORE, 14TH NOVEMBER 1910.

ORDER THEREON.—Recorded.

2. The total expenditure incurred on all the Observatories in the State during the year under report was Rs. 12,185-2-2 against Rs. 12,033-4-0 in the previous year.

3. The number of Rain-gauge Stations in the State was increased by 7 during the year, the new stations being established in the Mysore, Kadur and Chitaldrug Districts. Out of 223 stations, 172 were inspected by the Huzur Jamabandi Officers showing only a slight improvement over the previous year when 160 were inspected. The necessity of the inspection of all the Rain-gauge Stations in their districts once a year is again impressed on the Deputy Commissioners.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 8th November 1910.

No. 1154-7—Muz. 440-08-7, dated Bangalore, 8th November 1910.

Order.—The Inam villages of Manakanahalli and Bellale, offered as security by Venkatasubbammanniavaru for the repayment of a loan obtained from the Palace, being Dharmadaya Inams granted for the maintenance of a chattram and being as such not liable to be either alienated or given as security for private loans, the Government of His Highness the Maharaja of Mysore are pleased to direct in modification of Government Order No. R. 6137-40—L. R. 328-09-2, dated 11th March 1910, that the income from these two villages be set apart in its entirety and utilized for the maintenance of the charity for which they have been specifically endowed.

2. The remaining village of Mangala will therefore be alone held as security against payment of the Palace loan, and its income, under Government management, will every year be credited to the Palace till the amount is fully liquidated.

3. The chattram referred to above, with its endowment, having been directed in Government Order No. 738-40—M. F. 80-04-12, dated 20th January 1909, to be taken under Government management, so much of the Order No. R. 6137-40—L. R. 328-09-2, dated 11th March 1910, as refers to the payment of Rs. 800 a year to Venkatasubbammanniavaru for the conduct of the charity, is hereby cancelled. The Muzrai Department will restrict current expenditure to Rs. 800 per annum, the remainder of the income from Bellale and Manakanahalli accumulating as a fund for extraordinary expenditure, such as repairs to buildings, etc.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 12th November 1910.

READ—

The undermentioned representations made at the Dasara Representative Assembly of 1909:—

Subject No. 255.—There is a very large number of Muzrai institutions in the State especially in the malnad districts. Many institutions are not examined even at long intervals and their affairs are generally mismanaged. The Revenue officers being busy with their Revenue and Magisterial duties, cannot devote their time and attention to these institutions. A special Muzrai officer may be appointed at least for a time, to set matters right by placing such institutions on an organised basis and arranging for the maintenance of regular accounts in them. As the Revenue officers do not bestow much attention to the management of temples and chattrams endowed with inam lands non-official Taluk and District Committees may be appointed as in the Bombay Presidency to supervise the affairs of these institutions subject to the control of the Deputy Commissioner.

The inam lands allowed to several Muzrai institutions by Government are being enjoyed by private individuals and even the regular services in the temple are not performed. Several institutions are being thus ruined. Such institutions may be taken over under the management of the Muzrai Depatment, the Committees consisting of village officials and other respectable men in villages may be appointed to supervise their affairs and have a proper control on the income and expenditure in the institutions.

Subject No. 256.—A Committee may be appointed to enquire into the condition of all charitable Muzrai institutions in the State.

No. 1207-16—Muz. 751-09-2, dated Bangalore, 12th November 1910.

Order thereon.—The attention of the Muzrai Superintendent is invited to Government Order No. G. 1600-39—G. M. 1-08-2, dated the 7th September 1908, requiring him to inspect at least once a year all important institutions, and he is requested to submit reports in set forms to be drawn up with printed questions. Deputy Commissioners should at least once a year inspect all institutions having an income of Rs. 250 and above under their management and submit similar reports. The Muzrai Superintendent is requested to submit for the approval of Government a draft of such forms.

2. Government also desire that the Deputy Commissioners of Districts and the Muzrai Superintendent should scrutinise the manner in which incomes above Rs. 1,200 a year are spent, to see whether there is room for economy and for using the incomes in better ways than at present.

3. When the subject of the appointment of Committees was discussed in the year 1908, Government said that that was unnecessary. They see no reason to reconsider the matter and they are not at present satisfied that any fresh measures are necessary to be taken for the better supervision of the Muzrai institutions.

4. The functions devolving on Deputy Commissioners in the foregoing lines may, under the orders of the Deputy Commissioners, be discharged by Assistant Commissioners in charge of Sub-Divisions of Districts.

5. As regards the 3rd representation of Mr. Sankaranarayana Rao, he is informed that Government have been assuming the management of Muzrai institutions which are found to be not properly managed by Vahivatdars.

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 8th November 1910.

READ AGAIN—

(i) Government Proceedings (Geol.) No. 530-38—M. F. 88, dated 29th June 1901, directing that the right to collect corundum should be granted under licenses issued by the Deputy Commissioners of Districts and laying down the rules for the grant of such licenses.

(ii) Government Proceedings (Geol.) No. 124-31, dated 20th July 1905, prescribing tentatively certain rules for the issue by Government of long-term licenses for periods not exceeding five years for collecting corundum in such of the taluks of the State for which special applications were received.

No. 843-50, DATED BANGALORE, 8TH NOVEMBER 1910.

ORDER THEREON.—It is observed that under the collecting licenses hitherto issued both by the Government and by the Deputy Commissioners of Districts under the rules prescribed by the two Orders read above, very little work has been done and that the terms and conditions of the licenses have not been satisfactorily fulfilled. Very few licenses have been issued by Deputy Commissioners and it is undesirable that two sets of rules should be in existence side by side for the collection of the same mineral.

2. Government therefore direct that the Rules published under Government Proceedings (Geol.) No. 530-38—M. F. 88, dated 29th June 1901, giving Deputy Commissioners authority to grant licenses, be cancelled and that in future all applications for the collection of corundum shall be made to the Secretary to Government, Geological Department.

Correspondence ending with letter No. 12189, dated 28th May 1910, from the Revenue Commissioner in Mysore, regarding the mining lease, dated 29th January 1887, of the Attikuppa Gold Mining Block No. 6 in the Krishnarajpete Taluk, Mysore District.

No. 851-4, DATED BANGALORE, 8TH NOVEMBER 1910.

ORDER THEREON.—On the 29th January 1887 a mining lease No. 80 was granted to Mr. T. F. Thompson, Kitherhalli Estate, Shanivarasante, North Coorg, in respect of a block of land called the Attikuppa Gold Mining Block No. 6 in the Krishnarajpete Taluk and was assigned by him to the Bellibetta Gold Company, Limited, on the 17th September 1896.

2. In July 1906 in the course of certain correspondence with the Revenue Commissioner on the subject of an application from some raiyats for the grant for cultivation of certain lands comprised in the mining block it came to the notice of the Government that Mr. Thompson, the original lessee, had tendered to the Deputy Commissioner of Mysore a resignation of the Mining Block and that the same had been accepted by the Deputy Commissioner without any reference to Government.

3. The procedure in the acceptance by the Deputy Commissioner of the aforesaid resignation was irregular, as Mr. Thompson was not the owner of the block at the time he resigned it and further the terms of the lease regarding its termination before the due date had not been complied with. The Revenue Commissioner was therefore requested to have the necessary notices issued in accordance with the terms of the lease to the assignee company, *viz.*, the Bellibetta Gold Company, Ltd., demanding the payment of the arrears of assessment due on the block and calling upon the Company to make arrangements within six months from the date of the notice for the working of the block to the satisfaction of Government.

4. It is now reported that a notice was duly issued as above, but that it has been returned unclaimed. Under these circumstances Government are pleased to direct that the said mining lease be cancelled and the lands comprised therein resumed to Goverment.

5. As regards the arrears of assessment and local cess due to Government on the aforesaid block, the deposit of Rs. 1,000 held by Government in respect of the lease shall be taken as a set-off against a portion of the arrears due and the balance of the arrears, *viz.*, Rs. 46-12-6, written off the accounts, as it is now irrecoverable.

READ—

(1) Letter No. 7499—256, dated 6th May 1910, from the Deputy Commissioner, Kolar District, requesting to be informed whether the mining lease of the East Betarayaswami Block in the Bowringpet Taluk, standing in the name of Messrs. Knight & Sons of Calcutta, continues in the name of the Company or has been cancelled and stating that this information is required by him to take steps for the recovery of the assessment due on the block for the years 1908-09 and 1909-10.

(2) Letter from the Secretary to Government, Geological Department, No. 2409, dated 31st May 1910, to the Deputy Commissioner, Kolar District, stating that Messrs Paul Knight & Robert Knight of Calcutta continue to hold the mining lease of the East Betarayaswami Block and that as there is some doubt as to the actual amount of rent to be levied for the years 1908-09 and 1909-10, the order of Government on the subject will be communicated to him in due course.

(3) Memorandum No. 126, dated 23rd May 1910, on the subject from the Secretary to Government, Geological Department.

No. 915-17, DATED BANGALORE, 24TH NOVEMBER 1910.

ORDER THEREON.—The facts of the case are as follows:—

(1) Messrs. R. Knight & Sons of Calcutta acquired from the original lessees the mining lease, dated 18th March 1886, of the East Betarayaswami Block under a deed of assignment, dated 18th April 1903, and continued to hold the block under that lease up to the 4th September 1909.

(2) On the 4th September 1909, the Government, at the request of the assignees, granted a fresh lease for the block in the names of Messrs. Paul Knight and Robert Knight of Calcutta under the rules published under Government Notification No. 555-S., dated 2nd March 1904.

(3) Under the old lease the rent charged was according to the Survey assessment on the lands comprised in the block and was for the *official* year and due for payment on or before the 31st March of every year, while under the fresh lease it is changed for the *calendar* year at Re. 1 per acre and it is to be paid before the close of the *calendar* year.

(4) The block in question was held under the old lease for the portion of the year 1909 from 1st July to 3rd September 1909, and under the fresh lease for the remainder of that year, *viz.*, from 4th September to 31st December 1909, and the question now submitted for orders is as to what rent should be levied on the mining block for the broken period, from 1st July to 3rd September 1909, during which period, the lease was held under the lease of 1886.

2. The Government are pleased to direct that the claim for the assessment due under the old lease for the period from 1st July to 3rd September 1909 be waived and that half a year's rent under the terms of the new lease be charged for the period from 4th September to 31st December 1909.

3. The Government are also pleased to direct that, in future, where a lease is held for a portion of a year exceeding six months the full rent due for one year be charged and that for a portion of a year not exceeding six months half the annual rent be charged.
